

## Pickens says OSU town hall will be among his last

OKLAHOMA CITY (AP) - Billionaire energy magnate Boone Pickens says a town-hall meeting planned for his alma mater to promote his "Pickens Plan" for energy independence will be his next-to-last in a university setting.

### The Perils Of Over-Fishing

Daniel Pauly, a professor at the Fisheries Centre of the University of British Columbia, warns that the global fishing industry has drastically depleted the number of fish in the oceans. In an Oct. 7, 2009 article entitled "Aquacalypse Now: The End of Fish," published by The New Republic, Pauly writes that in the past 50 years "we have reduced the populations of large commercial fish, such as bluefin tuna, cod, and other favorites, by a staggering 90 percent."

Pauly says that as the fish populations decline, boats have begun to catch fish that weren't considered before — sometimes renaming them to sound more appetizing. (Thus the "Patagonian toothfish" becomes the "Chilean seabass.") Copyright 2009 National Public Radio
