Summary

Dr. Daniel Pauly was born 1946 in Paris, France. He grew up in the French-speaking part of Switzerland, but completed high school and university studies in the Federal Republic of Germany, where he earned a ‘Diplom’ (= MSc) in 1974 and a Doctorate in Fisheries Biology in 1979 at the University of Kiel. Daniel Pauly is French, but, since 2014, also holds Canadian citizenship.

In 1979, he joined the International Center for Living Aquatic Resources Management (ICLARM), Manila, Philippines, as a Postdoctoral Fellow, gradually assuming increasing responsibilities as Associate Scientist, Senior Scientist and Program/Division Director. The latter positions involved management of and fundraising for what had traditionally been one of ICLARM’s largest and most scientifically visible sets of activities.

Following a study leave to earn his ‘Habilitation’ at Kiel University (1985), Dr. Pauly directed the doctoral theses of a number of students at Kiel’s Institut für Meereskunde (Marine Science Institute), where, as ‘Privatdozent,’ he also taught several courses in fish population dynamics. In 1994, he joined the Fisheries Centre, University of British Columbia (UBC), in Vancouver, Canada, as a tenured Professor, while remaining ICLARM’s Principal Science Advisor until 1997 and the Science Advisor of its FishBase project until 2000. He served as Director of the Fisheries Centre from November 2003 to October 2008.

Since 1999, Dr. Pauly has served as Principal Investigator of the *Sea Around Us*, based at the Fisheries Centre (now the Institute for the Oceans and Fisheries), University of British Columbia, Vancouver, Canada. This initiative, which is devoted to studying the impact of fisheries on the world’s marine ecosystems, was initially supported mainly by funds he secured from the Pew Charitable Trusts, Philadelphia, USA, and since 2014, from a number of philanthropic foundations. Dr. Pauly’s scientific output, dedicated mainly to the management of fisheries and to ecosystem modeling, comprises 20+ authored and edited books, scientific papers and reports (a total of well over 1000 items), and the concepts, methods, and software he (co-)developed that are in use throughout the globally world, and made him one of the world’s most-cited living scientists. These contribution includes the Ecopath modeling approach and software (<https://celebrating200years.noaa.gov/breakthroughs/ecopath/welcome.html#use>), FishBase, the online encyclopaedia of fishes (see www.fishbase.org) and, increasingly, the quantitative results of the *Sea Around Us* Project (see www.searoundus.org), notably ‘reconstructed’ catch time series for the marine fisheries of the entire world.

Dr. Pauly is the recipient of multiple international prizes and awards, including eight honorary doctorates from universities in Europe and Canada. Since 2016, he is University Killam Professor, the highest honor conferred by UBC. Profiles of Daniel Pauly were published in the *Georgia Straight* on September 3, 1998, *Science* on April 19, 2002, *Nature* on Jan. 2, 2003 and March 17, 2015, the *New York Times* on Jan. 21, 2003, the *Globe and Mail* (Canada), October 29, 2005, *Cosmos Magazine* (Australia) in December 2006, and both *Le Monde* and *Libération*, France, March 4 and April 14, 2009, respectively, and other outlets.

A biography Daniel Pauly, by David Grémillet (‘*Un océan de combats*’, Edition Wildproject, 350 p.) was published in 2019, and its English translation (‘*The Ocean Whistleblower*’) was published by Greystone Books, Vancouver, 2021. His Google Scholar profile and citations can be accessed at <https://scholar.google.ca/citations?user=b6s1NfkAAAAJ&hl=en>

Positions held

June 2016 to present: University Killam Professor, UBC.
 November 24, 2017 to November 23, 2020: Adjunct Professor, University of Western Australia, Perth.
 October 1994 to June 2016: Professor of Fisheries, Fisheries Centre, UBC; from July 2015 to present, same, at the Institute for the Oceans and Fisheries (succeeding the FC).
 November 2003 to October 2008: Director, Fisheries Centre, University of British Columbia (UBC) [Acting Director from July to October 2003]
 October 1994 to December 1997: Principal Scientific Advisor, International Center for Living Aquatic Resources Management (ICLARM), Manila, Philippines
 1997 to December 2000: Scientific Advisor, FishBase Project, ICLARM
 July 1986 to September 1994: Director, Resources Assessment and Management Program, ICLARM (later renamed ‘Capture Fisheries Management Program,’ ‘Coastal Resources Systems Program,’ and ‘Life Science Division’)
 July 1985 to August 1994: Senior Scientist, ICLARM
 July 1980 to June 1985: Associate Scientist, ICLARM
 July 1979 to June 1980: Post-doctoral Fellow, ICLARM
 September 1978 to April 1979: Research Assistant, Department of Fishery Biology, Institute for Marine Sciences, Kiel, Germany
 October 1974 to December 1976: Project Assistant, German Society for Technical Cooperation (GTZ), assigned to the Indonesian-German Demersal Fisheries Project, Jakarta and Semarang, Indonesia, May 1975–December 1976.

Education

Management Course for Senior Staff of Centers in the Consultative Group for International Agricultural Research (CGIAR), Wintergreen, VA, USA, 29 June –10 July 1992;
 Habilitation (Marine Sciences), Kiel University (1985);
 Dr. *rerum naturalis*, Kiel University (Fishery Biology, Zoology and Physical Oceanography; noted: *Magna cum laude*)
 Diplom (= MSc) in Fishery Biology, Zoology and Physical Oceanography), Kiel University (1974; noted: ‘*Sehr gut*’);
Abitur, Abendgymnasium, Wuppertal, Germany (1969).

Awards received

| Date received | Award | Awarding entity/location |
|---------------------|---|--|
| November 2023 | Highly Cited Researcher (also from 2018 to 2022) | Clarivate Analytics |
| 2023, 14 November | Inducted as a Fellow of the California Academy of Science | California Academy of Science, San Francisco |
| May 16, 2023 | Honorary doctorate | University of Crete, Heraklion, Greece |
| February/ April ‘23 | Tyler Prize for Environmental Achievement (shared w/ U.R. Sumaila | Tyler Prize/University of Southern California, Los Angeles |
| November 2022 | “Excellence in Marine Technology | Jointly awarded by the Chinese Society for Oceanography, Pacific Ocean |

| | | |
|----------------|--|--|
| | 2022 – Marine Ecology and Resource Management” for the Chinese translation by Du Jianguo of “ <i>Gasping Fish and Panting Squids</i> ” | Society of China, and the Chinese Society for Oceanology and Limnology |
| October 2021 | World Expert in Aquaculture (top 0.1% of scholars writing about Aquaculture over the past 10 years) | ‘Expertscape’ https://expertscape.com/ex/aquaculture |
| Sept. 21, 2021 | 2019 Frontiers of Knowledge Awards (Ecology & Conservation; shared) | BBVA Foundation, Bilbao (awarded in 2020, but delayed due to Covid-19). |
| March 12, 2021 | Prof. N. Balakrishnan Nair Memorial International Fisheries Guru Award | University of Kerala, India |
| Jan. 2021 | Beverton Medal | Fisheries Society of the British Isles |
| May 22, 2019 | “Great Supervisor” | Faculty of Graduate and Postdoctoral Studies, UBC |
| Nov. 24, 2017 | Sir John Dawson Medal for Interdisciplinary Research | Royal Society of Canada (Acad. Sci.), Winnipeg |
| July 14, 2017 | Chevalier de la Légion d’Honneur | République Française, through its Ambassador to Canada |
| July 7, 2017 | Le Cren Medal (shared with FishBase staff) | Fisheries Society of the British Isles |
| Jan. 19, 2017 | Scientifique de l’année 2016 | Radio Canada, Montréal |
| Jan. 11, 2017 | Ocean Award (Science), shared with Dr. Dirk Zeller | Boat International & Blue Marine Foundation, London |
| Nov. 22, 2016 | Grande Médaille Prince Albert 1 ^{er} (Section Science) | Albert I Foundation de Monaco/ Paris, France |
| June 2016 | University Killam Professor | UBC, Vancouver, Canada |
| July 17, 2015 | American Fisheries Society Fellow | Portland, OR, USA |
| May 14, 2015 | Peter Benchley Ocean Award (Science) | Washington, D.C., USA |
| June 19, 2014 | Honorary Doctorate | Universidad de Cadiz, Spain |
| Feb. 15, 2014 | Induction as AAAS Fellow | Chicago, IL, USA |
| 2013 | Honorary Doctorate | Univ. de Alicante, Spain |
| 2012 | Nierenberg Award for Science in the Public Interest | Scripps Institution of Oceanography. La Jolla, US. |
| March 8, 2012 | Innovative Dissemination of Research Award (for the <i>Sea Around Us</i> website) | UBC Library, Vancouver, Canada |
| 2012 | Grand Prix 2011 | Society Française d’Ecologie, Paris, France |
| 2010 | Honorary Doctorate | Universidade do Algarve, Faro, Portugal |
| 2008 | Ramon Margalef Prize in Ecology | Barcelona, Spain |

| | | |
|-------------------------|--|--|
| 2008 | Honorary Doctorate | Wageningen University, The Netherlands |
| 2008 | Honorary Doctorate | Katholieke Universiteit Leuven, Belgium |
| 2007 | Conservation Award [received on behalf of the FishBase Consortium] | International Game Fish Association, Palm Beach, USA |
| 2007 | Ted Danson Ocean Hero Award | Oceana, Los Angeles, USA |
| 2007 | Excellence in Ecology Prize | Inter-Research Science Center, Oldendorf/Luhe, Germany |
| 2007 | Honorary Doctorate | Université de Montréal, Montréal, Canada |
| 2006 | Volvo Environment Prize (shared) | Volvo Foundation, Stockholm |
| 2005 | Zayed International Prize for the Environment (shared with the many authors of the “Millenium Ecosystem Assessment”) | Zayed International Foundation |
| 2005 | International Cosmos Prize | Expo '90 Foundation, Osaka, Japan |
| 2005 | Honorary Doctorate | Aristotle University, Thessaloniki, Greece |
| 2005 | Edward T. LaRoe III Memorial Award | Society of Conservation Biology, Brasilia, Brazil |
| 2004 | Roger Revelle Medal | IOC/UNESCO, Paris, France |
| 2004 | Award of Excellence | American Fisheries Society, Madison, WI, USA |
| Dec. 2003 | <i>Scientific American's</i> '50 Research Leaders in 2003' | USA |
| 2003 | Distinguished University Scholar | UBC, Vancouver, BC, Canada |
| 2003 | Fellow of the Royal Society of Canada | Academy of Science, Canada |
| 2002 | Honorary Professor | Kiel University, Germany |
| 2001 | Oscar E. Sette Award | Marine Fisheries Section, American Fisheries Society |
| 2001 | Murray Newman Award for Excellence in Marine Conservation Research | Vancouver Aquarium, Vancouver, Canada |
| 1996 | ICLARM Board of Trustees' Award for 'Best Staff' | Manila, Philippines |
| 1988 | Elvira O. Tan Memorial Award for Best Paper in Marine Fisheries (shared) | Philippine Council for Aquatic and Marine Research and Development, Manila. |
| July 1979– June 1980 | ICLARM Post-Doctoral Fellowship | Manila, Philippines |
| 1970 – 1974 | Villigst Foundation Fellowship | Lutheran Church Foundation; for 'hochbegabte' (highly gifted') students, Germany |

Conferences/Workshops organized

- Franco-Canadian Congress on Fisheries and Aquaculture, St. Pierre and Miquelon (September 2021, 2022 and 2023) [with Fabrice Teletchea].
- Workshop on ‘Utilisation de la méthode CMSY pour l'évaluation des stocks de petits pélagiques en Afrique de l'Ouest’, Dakar, Sénégal, 23–27 septembre, 2019. [With Dr. M.L.D. Palomares]
- Workshop on ‘Use of the CMSY/LBB Tools for the Assessment of Chinese Stocks,’ Institute of Oceanology, Chinese Academy of Science, Qingdao, China, June 18–20, 2019 [With Drs. M.L.D. Palomares and C. Liang]
- Workshop on Catch Reconstruction for the Philippines, Manila, 3–4 November 2014 [With Dr. M.L.D. Palomares].
- Atelier COMFISH/ELEFAN; Dakar, Senegal, June 3–8, 2013 [With Dr. M.L.D. Palomares].
- Symposium on “Leveling the Global Playing Field: Global Inferences from Reliable Global Samples,” February 19, 2012, Annual Meeting, AAAS, Vancouver, B.C. [With Dr. Kristin Kleisner]
- Too Precious to Drill: the Marine Biodiversity of Belize. International conference on June 28 – July 1, 2011, Biltmore Hotel, Belize City. [With Dr. M.L.D. Palomares]
- FishBase Consortium Annual Meeting and Symposium, September, 4–6, 2006, Fisheries Centre, UBC, Vancouver, BC. [With Dr. M.L.D. Palomares]
- Evaluating Marine and Fisheries Information Needs of NGOs, Aquatic Ecosystem Research Laboratory, UBC, October 5–6, 2005, Vancouver.
- Atelier Ecopath: Elaboration d'un modèle de la zone maritime de Kerguelen. Muséum National d'Histoire Naturelle, Paris, 29–30 Sept. 2003. [With Dr. M.L.D. Palomares].
- International Symposium on “Marine fisheries, Ecosystems, and Societies in West Africa: Half a Century of Change,” Dakar, Senegal, 26–28 June 2002. [With P. Chavance (IRD) and others].
- Symposium on “Fisheries-induced changes in Marine Ecosystems,” February 16, 2002, Annual Meeting, AAAS, Boston, MA.
- Atelier Ecopath : Construction d'un modèle de la Baie du Mont St. Michel, Golfe Normand-Breton. Avril 17–20, 2000, Département Halieutique, École Nationale Supérieure Agronomique de Rennes, France.
- Symposium on “Back to the Future: Restoring Ecosystems Impacted by Fisheries,” February 21, 2000, Annual Meeting, AAAS, Washington, D.C.
- Workshops to present the Prince William Sound Ecosystem Model and the Alaska Marine Ecosystem CD-ROM, March 28 (Alaska Department of Fish and Game) and September 29, 1999 (Exxon Valdez Oil Spill Restoration Council), Anchorage, Alaska.
- ACP/EU International Conference on Ocean Food Webs and Economic Productivity, July 1–3, 1998, Lisbon, Portugal.
- FAO/FC Workshop on the Use of Ecopath with Ecosim to Evaluate Strategies for Sustainable Exploitation of Multi-Species Resources, March, 25–27 1998, Fisheries Centre, UBC.
- Workshop on Modeling the Prince William Sound Ecosystem, March 2–4, 1998, Exxon Valdez Oil Spill Restoration Council, Anchorage, Alaska.

Workshop on Mass-Balance Models of North Pacific Ecosystems, November 6–10, 1995, Fisheries Centre, University of British Columbia, Vancouver.

Mid-Term Planning Workshop for ICLARM's Coastal Resources System Program, ICLARM Headquarters, 1–3 October 1992.

Poster Session on Construction and Comparison of Trophic Models of Aquatic Ecosystems, International Council for the Exploration of the Seas, Copenhagen. October, 4–9, 1990.

Workshop on Models for Yield Prediction in the Peruvian Upwelling Ecosystem, August 24–28, 1987, IMARPE, Callao, Peru.

ICLARM/KISR Conference/Workshop on the Theory and Application of Length-Based Methods in Stock Assessment. February 10–15, 1985. Mazara del Vallo, Sicily, Italy.

Ad hoc Consultation on Fish Stock Assessment in Coral Reefs. ICLARM Headquarters, May 25–26, 1981. Manila, Philippines.

ICLARM/CSIRO Workshop on the Theory and Management of Tropical Multispecies Stocks. January 12–21, 1981, Cronulla, Australia.

Memberships on editorial boards

Science, Member of the Advisory Board (current, since July 1, 2020)

African Journal of Marine Science. Editorial Advisory Board Member, 2003 to 2013

African J. of Tropical Hydrobiology and Fisheries. Editorial Board Member, 1995 to 2001

Asian Fisheries Science. Editorial Board Member, 1987 to 1993

Boletim do Instituto Português de Investigação Marítima. Advisory Board Member, 1995

Ethics in Science and Environmental Politics, Editorial Board Member, 2008 to 2012

Fish and Fisheries, Associate Editor, 1999 to 2009

Fishbyte (Newsletter of the Network of Tropical Fisheries Scientists). Editor, 1988 to 1991

Fishbyte Section of *Naga, the ICLARM Quarterly*, Editor, 1992-1996

Journal of Applied Ichthyology. Subject Editor, Fisheries in Developing Countries, 1985 to 1994

Marine and Freshwater Research (formerly *Austr. J. Mar. Freshwat. Res.*), 1997 to 2007

Reviews in Fish Biology and Fisheries, Editorial Board Member, 1991 to 1999

Memberships in societies/panels

American Fisheries Society, 1981 to 1987 and 1995 to @@

Aquatic Science and Fisheries Abstracts (ASFA), Strategic Advisory Group, Feb. to Dec. 2019

Asian Fisheries Society Research Fellowship Award Scheme - Scientific Advisor, 1988 to 1993

Asian Fisheries Society, 1984 to 1993

BBVA Foundation Frontier of Knowledge Awards (Ecology & Conservation) – Jury Chair; January 2009 to June 2014)

Bloom Association, France, Board Member, @@

British Columbia's Emerging Economy Task Force. Member, July 10, 2018 to December 2019

British Sub-Aqua Club/Philippine Sub-Aqua Club, 1988 to 1997

Centre de Recherche Halieutique Méditerranéenne et Tropicale, Sète, France - Membre du comité scientifique, 2004 to 2008

Coastal Development Centre, Faculty of Fisheries, Kasetsart University, Bangkok, Board of Advisors, 2000 to 2002

Committee on Ecosystem Management for Sustainable Marine Fisheries, (U.S.) National Research Council (Washington, D.C.), September 1995 to 1998

Committee on Marine Science, Pacific Science Association, 1986 to 1988

Common Property Resource Network, 1986 to 1997

COMPASS/Communication Partnership for Science and the Sea - Science Advisor, 2005 to 2013

Deutsche Gesellschaft für Meeresforschung, 1982 to 1994

EPOMEX (Program of Ecology, Fisheries and Oceanography of Gulf of Mexico (Universidad Autonoma de Campeche & Mexico's Secretaria de Educacion Publica), Member of the Scientific Council, 1991 to 1996.

Fisheries Centre, University of British Columbia, Director, 2003 to 2008

Fisheries Society of the British Isles, 1987 to 1994

Global Footprint Network - Member, Science and Policy Advisory Council, 2004 to present;

Grenelle de la Mer (French national consultation on ocean affairs) - session of May 6, 2009, on fisheries, w/ briefing of the Minister of the Environment, J.L. Borloo on May 7, 2009

International Foundation for Science, Stockholm - Scientific Advisor, 1995 to 1998

IOC/FAO Guiding Group of Experts of the Ocean Science and Living Resources Program, 1984 to 1989

IOC/SCOR Committee on Climate Changes and the Oceans - Biological Rapporteur, 1987 to 1988

IOC/SCOR Working Group 119 on "Quantitative Ecosystem Indicators for Fisheries Management." Associate member, 1996 to 2005

IOC/SCOR. Working Group 105 on "The Impact on Fisheries Harvest on the Stability and diversity of Marine Ecosystems." Member, March 1996 to February 1999

IPCC Working Group III; Contributing Author to Fifth Assessment Report, Chapter 11, on 'Agriculture, Forestry and Other Land Uses (AFOLU)', 2013 to 2014

Millennium Ecosystem Assessment: Coordinating Lead Author for 'Marine Systems', 2002 to 2005

National Geographic 'Ocean Advisory Board', 2010 to 2011

Natural Resources Defence Council, New York - Board Member, 2002 to 2006 (Honorary Board Member since 2007)

Network of Tropical Aquaculture Scientists, 1987 to 1997

Network of Tropical Fisheries Scientists (ICLARM), 1982 to 1997

Nippon Foundation's Nereus Program/Predicting Future Oceans. Chair, Steering Committee, 2014 to 2016.

Ocean Foundation - Member, Board of Advisors, 2005 to 2015

Oceana, Washington, D.C. - Board Member, 2003 to present;

One World - One Ocean Science Advisory Council [see oneworldocean.org]

Parc National de la Mer de Corail, New Caledonia. Member, Scientific Committee, 2018-2020

Pew Fellows Program in Marine Conservation - Member, Advisory Council, 1999 to 2004

Philippine Fisheries Research Society, 1980 to 1989

Royal Society of Canada (Academy of Science), 2003 to present;

Swire Trust Marine Advisory Panel (Hong Kong), January 1, 2019 to December 31, 2024

TerraNature, New Zealand, - Advisory Council Member, 2005 to 2009

Truth and Reconciliation Commission of Canada. 'Honorary Witness', from Induction on September 20, 2013 to December 2015.

Vancouver Institute - Council Member, 2006 to 2018

World Wildlife Fund for Nature (WWF), Canada - Board Member, 2004 to 2006

Zentrum für Tropische Meeresökologie, Universität Bremen, Germany - Member of the Scientific Advisory Committee, 2004 to 2007

Consultancies

Evaluating the impacts of legal and illegal fishing on the fish resources of Coiba National Park, Panama, for UNESCO, May to June 2018

Advising the NWFSC Modeling Trends in Fish Abundance in Gulf of Mexico pre/post Spill. Project, 2014 to 2015.

- Advising the Exxon Valdez Oil Spill Restoration Council, Ecosystem Modeling on Prince William Sound, January 1997, Anchorage, Alaska, with follow-up ecosystem modeling project, 1997 to 1998
- Reviewing, with two other external evaluators (TJ Pitcher, UBC and Bill Peterson, GLOBEC), proposals submitted to the SANCOR Program, Cape Town, South Africa, 26-30 September 1994
- Leading a World Bank Mission to Kenya, Malawi, Mozambique and Zimbabwe, as a part of the 'Study of International Fisheries Research' 7-26 January 1990
- Introducing staff of the Programa Peruano-Aleman de Investigacion Pesquera and of the Instituto del Mar del Peru to advanced stock assessment methods and assisting with the preparation of various publications (including two books), in Callao, Peru: November/December 1981; 30 April-7 May 1983; 19 February-14 March 1985; 7-26 October 1986; 17 August-2 September 1987; September 1988; and 22 July-5 August 1989; all visits on behalf of the Deutsche Gesellschaft für Technische Zusammenarbeit
- Reviewing (with three other team members), on behalf of the U.S. Agency for International Development, the achievements of the ASEAN/US Coastal Area Management Project, January 1988
- Advising the Secretary and staff of the Intergovernmental Oceanographic Commission (IOC, Paris) on the status of shrimp recruitment research in the Western Pacific area, 4-5 June 1987
- Reviewing and contributing to the research of the Fish and Shrimp Management Program of the Mariculture and Fisheries Department, Kuwait Institute of Scientific Research, Kuwait, April and December 1985, and January 1986
- Developing (with P. Fox, I.R. Smith and E. Cruz), on behalf of the U.S. Agency for International Development, Philippine Mission, a project plan for a fish stock assessment/pilot fishery management component of its 'Rainfed Resource Development Project', September-November 1985
- Providing Advice on Microcomputer Use and Shrimp Stock Assessment to the FAO/SIDA Bay of Bengal Programme, Madras, India, 3-5 December 1983
- Advising on analysis of fishery survey data and research planning, 15-27 August and 8-17 December 1983, Sea Fisheries Research Unit, Rangoon, Burma on behalf of the Food and Agriculture Organization of the United Nations
- Planning of FAO/DANIDA Training Courses In Tropical Fish Stock Assessment: October 1982, Charlottenlund, Denmark, and September 1982 and February 1989 at FAO Headquarters, Rome, Italy
- Advising the Ecuadorian-British Fisheries Development Project in Guayaquil, Ecuador, on the interpretation of project data (visit sponsored by the Overseas Development Agency), November/December 1981
- Reviewing the Theory of Tropical Multispecies Fisheries, ICLARM Headquarters, Manila, Philippines, July-August 1978

Teaching and training

Courses and lectures at various institutions in the Philippines (1987-1982)

- FAO/DANIDA Follow-up Training Course in Stock Assessment in the Tropics, 12 January-6 February 1987
- CRSP/GTZ/ICLARM Course on Fish Stock Assessment, College of Fisheries, University of the Philippines, October 1986
- FAO/DANIDA National Training Course in Tropical Fish Stock Assessment, Manila, Philippines, 13 January-5 February 1986

Regular lectures at the University of the Philippines, Dilliman Campus, Quezon City: 1980/1981 term: Management of aquatic resources; 1981/1982: Management of aquatic resources; 1985/1986: Tropical fish population dynamics
 MSL/ICLARM Course in Fish Population Dynamics, Marine Science Laboratory, Silliman University, Dumaguete City, Philippines, June 1982
 BFAR/PCARRD/SCSP/ICLARM Course on Fisheries Resources Assessment, Ateneo de Manila University, 3–15 May 1982

Courses and lectures at the University of Kiel, Germany (1990–1984)

Aufbaukurse zur Populationsdynamik der Fische: neue Konzepte und Methoden (2-Stündig. Blockkurs, 20–26 Juni 1989, 10–15 July 1989 and 25–29 June 1990, Institut für Meereskunde)
 Aufbaukurse zur Populationsdynamik Tropischer Fische: neue Konzepte und Methoden (2-Stündiger Blockkurs, 20–26 Juni 1988, Institut für Meereskunde)
 Theorie und Praxis der Datenanalyse in der Fischereibiologie (Vorlesung mit Übung, 2 Stündig, SS 1985, Institut für Meereskunde)
 Einführung in die Fischereibiologie der Tropen (Einstündige Vorlesung, WS 1984/1985, Institut für Meereskunde)

Courses in miscellaneous institutions and countries (2019–1980; excluding UBC)

Atelier : Utilisation de la méthode CMSY pour l'évaluation des stocks ouest-africains, 23–27 septembre 2019, Dakar, Sénégal. *Sea Around Us*, Commission Sous-Régionale des Pêches et MAVA Fondation.
 Workshop on ‘Use of the CMSY/LBB Tools for the Assessment of Chinese Stocks,’ Institute of Oceanology, Chinese Academy of Science, Qingdao, China, June 18–20, 2019.
 Ocean Conservation Masterclass: ‘studying ocean conservation on a global basis’ (4 days with 2 times 1-hour lecture each), University of Western Australia, Perth, May 21 to 24, 2018.
 Ocean Conservation Masterclass: ‘studying ocean conservation on a global basis’ (5 days with 2 times 1-hour lecture each), University of Western Australia, Perth, May 22–26, 2017.
 Co-teaching “Topics in Marine Ecology & Conservation” (with Dr. Jennifer Jacquet); fall semester 2016 at New York University (ENVST-UA 323).
 One-week course (8 lectures + discussions) for the “Master Internacional en Gestión Pesquera Sostenible”, Universidad de Alicante, 18–22 April, 2016.
 Daily lectures to the 2003 class of the United Nations University Fisheries Training Program, Institute of Marine Research, Reykjavik, December 15–19, 2002,
 Composante Ecopath du Cours SIAP en Gestion Ecosystémique, juillet 3–5, 2001. Ecole Nationale Supérieure Agronomique de Rennes, France.
 APEC/OMISAR Workshop on Marine Ecosystem Analysis and Modeling for the APEC Region. Taipei, Taiwan, August 7–10, 2000.
 ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management (Nouméa, New Caledonia Oct. 1997; Port of Spain, May/June 1998; Swakopmund, Namibia, Dec. 1998; Dakar, Senegal, April 1999 and Nairobi, Kenya, August 1999; details at www.fishbase.org).
 Placing Fisheries in their Ecosystem Context. ‘Ecopath course’ for Participants from South America, held in Sao Paulo, Brazil, November 30–December 5, 1998, under the Auspices of the European Union.
 Placing Fisheries in their Ecosystem Context. ‘Ecopath course’ for Participants from West Africa and Europe, held in Hirsthals, Denmark, August 4–8, 1998, under the Auspices of the European Union.

- Placing Fisheries in their Ecosystem Context. 'Ecopath course' for Participants from Central America and the Caribbean, held in Puntarena, Costa Rica, April 21–27, 1998, under the Auspices of the European Union
- Training course in the Construction and Interpretation of Ecopath Mass-Balance Models of Ecosystems, CICIMAR/ICLARM/UBC Fisheries Centre, La Paz, Mexico, October 21–27, 1996.
- Population dynamics and trophic interactions of fish and aquatic invertebrates. EPOMEX, Universidad Autonoma de Campeche. Annual course: October/November 1992–1995, Campeche, Mexico.
- Population dynamics and trophic interactions of fish and aquatic invertebrates. Alfred-Wegener Institut für Polar und Meeresforschung/Bremen University, 4–8 November 1991, Bremerhaven, Germany [Also: Zentrum für Marine Tropenökologie, Bremen University, 11 May 1992, Bremen, Germany, and University of Bergen, 20-22 May 1992, Bergen, Norway].
- IMARPE/FAO/DANIDA Training Course in Fish Stock Assessment, Callao, Peru, 3–28 September 1990.
- Training course on length-based assessment and the Compleat ELEFAN software. Executed for the Caribbean Fisheries Council and the Puerto Rico Dept. of Fisheries at Mayagüez, Puerto Rico, July 30 to August 1, 1990.
- FAO/DANIDA Regional Training Course in Fish Stock Assessment, 15 October – 9 November, 1990, Cumana, Venezuela.
- HEST/TAFIRI/FAO/DANIDA Regional Training Course in Tropical Fish Stock Assessment, Mwanza, Tanzania, 4- 26 February 1989;
- Training Course on Quantitative Methods in Marine Biology, given to staff of the Laboratory for Ichthyology and Coastal Systems, Universidad Nacional Autonoma de Mexico, Mexico, D.F., Mexico, 7–11 September 1987.
- Training Course on the use of Microcomputers and of Length-Frequency Data for Fishery Stock Assessment, Instituto del Mar del Peru, Callao, Peru, August 29 – September 2, 1987.
- FAO/DANIDA Follow-up Training Course in Tropical Fish -Stock Assessment, Hirtshals, Denmark, 5–24 May 1986.
- CIFAD Training Course on Fishery Data Management Using Microcomputers, Corvallis, Oregon, U.S.A., 4–8 August 1986.
- Training Course in Fish Stock Assessment sponsored by NORAD and held at the Instituto de Investigação Pesqueira, Maputo, Mozambique, 22 February –14 March 1986.
- Workshop of the General Council for the Fisheries of the Mediterranean on Simple Analytical Methods for Stock Assessment, Sidi Fredj, Algeria, 16–18 November 1985.
- Taller sobre Metodos Simples en la Dinamica de Poblaciones de Peces e Invertebrados, Universidad de Trujillo, Peru, 17–19 October 1985.
- FAO/DANIDA National Training Course in Tropical Fish Stock Assessment, Penang, Malaysia, 5 November –1 December 1984.
- FAO/DANIDA Training Course in Tropical Fish Stock Assessment, Cochin, India, 25 November to 2 December 1983.
- FAO/DANIDA Training Course in Tropical Fish Stock Assessment, Mombasa, Kenya, 28 May - 20 June 1983.
- Regional Training Course on Fishery Stock Assessment and Fishery Statistics, sponsored by the Asian Development Bank, FAO/SCSP, FAO/SIDA and the Government of Thailand, Samutprakarn, Thailand, 1–9 October 1981.
- Danida/FAO Training Course in Tropical Fish Stock Assessment, Mombasa, Kenya, 19 May–4 June 1980.

Theses supervised while at the University of British Columbia (2023 –1997)

- Smith, Mica, R.X. 2023. Estimating the inland fisheries catch (1950-2019) of data-sparse countries and territories, with emphasis on Africa. MSc Thesis, University of British Columbia, Vancouver, 143 p.
- Warren, Melanie, 2023. Urea(ka)! The role of urea and oxygen in the relationship between length at first maturity and maximum length in ureotelic and non-ureotelic cartilaginous fishes. MSc Thesis, University of British Columbia, Vancouver, 278 p.
- Schijns, Rebecca. 2020. What has Canada caught, and how much is left? Reconstructing and assessing fisheries in three oceans. MSc Thesis, University of British Columbia, Vancouver, 128 p.

- Dalzell, P. 1989. The biology of surgeon fishes (Family: Acanthuridae), with particular emphasis on *Acanthurus nigricauda* and *A. xanthopterus* from Northern Papua New Guinea. Master thesis, University of Newcastle, 285 p. (Topic formulation and methodological guidance on behalf of Prof. N. Polunin, University of Newcastle, U.K.).
- Prein, M. 1985. The influence of environmental factors on fish production in tropical fish ponds investigated with multiple regression and path analysis. Diplomarbeit, Math-Nat. wiss. Fakultät, Universität Kiel, 104 p. (Topic definition, and acting as 'Korreferent' on behalf of Prof. Dr. W. Nellen, Abteilung Fischereibiologie, IfM).

- Vakily, J.M. 1980. The exploitation of a fishing ground in the Philippines. Diplomarbeit, Math-Nat. wiss. Fakultät, Universität Kiel, 104 p. (Topic defined and Philippine field work supervised on behalf of Prof. Dr. G. Hempel).
- Ziegler, B. 1979. Growth and mortality of some fishes from Manila Bay Philippines, as estimated from their length frequencies. Diplomarbeit, Mathematische-Naturwissenschaftliche Fakultät, Universität Kiel, 116 p. (Topic defined, field work and data analysis supervised on behalf of Prof. G. Hempel, Director, Abteilung Fischereibiologie, IfM).

Master of Science theses supervised in the Philippines (1991–1981)

My supervision of Filipino students was performed in various formal (and sometimes informal) roles, including ‘advisor,’ ‘co-advisor,’ ‘field advisor,’ ‘critic,’ ‘reader,’ etc., but implied in all cases that the student in question worked on themes and/or with methods I suggested and that I reviewed and edited various drafts.

Virtual lectures/formal presentations (since mid-March 2020)

- January, 24, 2024. Fish Must Breathe: an introduction to the Gill-Oxygen Limitation Theory. Memorial University, St John’s, Newfoundland.
- April, 6, 2023. *Seafood and Sustainability*. In: Workshop in ‘The Role of Seafood Consumption in Child Growth and Development’. National Academy of Sciences, Washington, D.C.
- December 14, 2022. The Fisheries of the Southern Mediterranean, from Morocco to Turkey (1950-2019). Bisan Lecture Series. <https://www.scientists4palestine.com/bisan-lecture-series/>
- October, 10, 2022. *Marine Biodiversity, Fisheries and Conservation in West Africa*. Lecture with demonstration of the *Sea Around Us* website. MAREAFRICA MSc Course, University of the Algarve, Portugal.
- September, 21, 2022. *Too hot or too cold: the biochemical basis of temperature-size rules for ectotherms*. ICES Annual Science Conference (ASC) 2022, Dublin.
- July, 14, 2022. *The conquest by humans o the Earth and the Oceans*. Summer course, Scripps Institution for Oceanography, San Diego. [Also, the same day/group: *Fish Must Breathe: An Introduction to the Gill-Oxygen Limitation Theory (GOLT)*]
- June, 28, 2022. Fish Must Breathe: An Introduction to the Gill-Oxygen Limitation Theory (GOLT). Seminar, Institute of Environmental Science and Technology, Autonomous University of Barcelona.
- June, 8, 2022. The Growth, Respiration and Reproduction of Crustaceans: a Synthesis through the Gill-Oxygen Limitation Theory (GOLT). Plenary Lecture, Congresso Brasileiro Sobre Crustáceos (CBC) & The Crustacean Society (TCS) Summer Meeting.
- May 6, 2022. *Some Useful Concept for the Study of Aquatic Biodiversity, Stock Assessment and Conservation in Tropical Asia*. International Lead Lecture, 12th Indian Fisheries and Aquaculture Forum (IFAF- 2022), Tamil Nadu Dr. J. Jayalithaa Fisheries University.
- May 2, 2022. *Citizen science data and FishBase*. Workshop on Machine learning tools for species identification and fish size estimation in recreational and small-scale fisheries. Host: Asta Audzijonyte, University of Tasmania, Australia.
- March 16, 2022. *The Past And Future Of Global Marine Fisheries* - Congreso Futuro, Santiago de Chile, https://www.youtube.com/watch?v=ol4_X2rS_Z0
- January 18, 2022. *Aquacalypse: the Impact of Fisheries and global warming on marine ecosystems* Congreso Futuro, Santiago de Chile.
- January 17, 2022. *Fisheries catches and the mean temperature of the catch from historical and archeological records*. Meeting on “Climate and pre-industrial human impacts on marine ecosystems: crossing disciplinary boundaries’ Q-Mare, <https://pastglobalchanges.org/science/wg/q-mare/intro> .
- November 5, 2021. *Comprendre pourquoi les poissons se développent comme ils le font, et ce qui détermine leur maturité sexuelle: le rôle de l’oxygène et de la morphologie des branchies*. Université du Québec à Rimouski, Canada.
- October 11, 2021. *Fish growth, reproduction and global warming: how they relate*. Ibero-American Symposium on Reproductive Ecology, Recruitment and Fisheries (V SIBECORP), Ibero-American Research Network for the Sustainable Use of Fisheries Resources (INVIPESCA), University of Magdalena, Santa Marta, Colombia.
- September, 2021. Documenting and mapping the global expansion of industrial overfishing from 1950 to 2018. Recorded presentation, 8th World Fisheries Congress, Adelaide, Australia.

- August 24, 2021. *Why fish move poleward as temperatures increase*. Sea Change: Fish and Fisheries Managers Respond to Climate Change. Institute for Journalism & Natural Resources.
- July 22, 2021. *Fish Must Breathe*. Conference keynote, 16th National Symposium on Marine Science, Philippines Association of Marine Sciences, Caraga State University, Philippines.
- July 8, 2021. *Why do fish reach first maturity when they do?* Jack Jones (Keynote) Lecture. Fish, Fisheries and Ecosystems in the Anthropocene, Fisheries Society of the British Isles 2021 Online Symposium, Leuven, Belgium.
- May 18, 2021. *The Management of Global Fisheries*. Brock House Society Tuesday Morning Lectures, UBC, Vancouver.
- May 15, 2021. *Vanishing Fish: Shifting Baselines and the Future of Global Fisheries*. SeaTalks, Saturna Island Marine Research & Education Society, B.C.
- April 22, 2021. *The Gill-Oxygen Limitation Theory (GOLT)*. Public lecture for the five marine institutes under the umbrella of the Spanish National Research Council, Institute of Marine Research in Vigo, Spain.
- April 21, 2021. *Fish gills and their growth*. Panther Talk:- Rainier Valley Leadership Academy, Seattle, USA.
- April 14, 2021. *The state of global fish stocks and overfishing*. Online seminar celebrating WWF Finland's 60th anniversary, Helsinki, Finland; <https://youtu.be/bBar2ThC4wE>
- April 8, 2021. *Poissons : notre appétit ravageur*. Coeur des science - Université du Québec à Montréal, Canada.
- March 16, 2021. *Tropical fish and invertebrates in warming and deoxygenating oceans*. Virtual ZMT Alumni Conference on 'Data management and collaboration for tackling marine challenges', Leibniz-Zentrum für Marine Tropenforschung (ZMT), Bremen.
- March 12, 2021. *Assessing the status of exploited tropical fish populations: the challenges and their solutions*. Online conference on : Sustainable Marine Fisheries and Aquaculture: Policies, Packages and Perspectives in the Blue Economy Paradigm, University of Kerala and Shastri Indo-Canadian Institute, Kerala, India.
- February 7, 2021. *The Gill-Oxygen Limitation Theory (GOLT): application to the fish and invertebrates of Iberoamérica*. Foro Iberoamericano de los Recursos Marinos y la Acuicultura (FIRMA).
- November 24, 2020. *Why water-breathers such as fish are sensitive to ocean warming and deoxygenation*. Public lecture, Departamento de Manejo Pesquero y Medio Ambiente, Facultad de Pesquería, Universidad Nacional Agraria La Molina, Lima, Peru.
- November 16, 2020. *Why water-breathers such as fish are sensitive to ocean warming and deoxygenation*. Bren Seminar, Bren School of Environmental Science & Management, University of California – Santa Barbara, USA.
- October 1, 2020. *Temperature, Oxygen and the Biology of Fish: Exploring the Gill-Oxygen Limitation Theory*. Colombia 2020, International Conference on Marine Science: Tropical Oceans for the future. CEMarin 10th anniversary. Corporation Center of Excellence in Marine Sciences-CEMarin, Bogotá, Colombia.
- October 1, 2020. *El crecimiento de la pesca artesanal en el Perú de 1950 al 2018*. Panel discussion. Oceana Peru, Lima, Peru. <https://www.youtube.com/watch?v=ahWep1LYDAU>
- September 25, 2020. *Illegal, unreported and unregulated fishing around the world*. Celebrating 50 Years: Smithsonian Magazine and Earth Day, Washington DC, USA.
- September 2, 2020. *Shrinking, gasping, and disappearing fish: how climate change and fishing policy impact marine ecosystems and the bold actions needed to protect ocean health*. Yale Law Speaker Series "One Health: The Inseparable Fates of Humans, Animals, and the Planet." Law, Ethics, and Animals Program at the Yale Law School, New Haven, USA.
- September 1, 2020. *The global impact of fisheries and global warming on marine ecosystems*. Shoals Marine Laboratory's Rock Talk Seminar Series, Maine, USA. <https://www.youtube.com/watch?v=0PzMtsDqzVo>.
- July 8, 2020. *Fisheries Subsidies: how can leaders use the trade system to deliver for people and planet?* International Institute for Sustainable Development's webinar, organized together with Pew Charitable Trusts, the International Chamber of Commerce and the World Economic Forum's MC2020 dialogue. Châtelaine, Switzerland. <https://www.youtube.com/watch?v=zHiVlsBWJpg&feature=youtu.be>

June 23, 2020. *Major trends in marine fisheries*. Sciaena Webinar. Universidade do Algarve, Faro, Portugal. <https://www.youtube.com/watch?v=gIfZrgpOAYY>

In-person lectures/formal presentations (January 2024 – 1976)

- Metz, January 9, 2024. L'oxygène, la température et la croissance et reproduction des poissons. Laboratoire Interdisciplinaire des Environnements Continentaux, Université de Lorraine, France.
- Calgary, November 29, 2023. The Fisheries of the Indo-Pacific and (Food) Security. HCMS Tecumseh, Royal Canadian Navy.
- Bergen, October 7, 2023. How the global industrial food system is destroying the ocean and what to do about it. Pew Fellows in Marine Conservation – 2023 Annual Meeting, Norway.
- St Pierre, September 29, 2023. *Toward modeling the sea around St. Pierre et Miquelon*. Third Franco-Canadian Congress on Aquatic Science, Saint-Pierre-et-Miquelon, France.
- Tervuren, September 4, 2023. *Application of the Gill-Oxygen Limitation Theory (GOLT) to the elasmobranchs: surprising and beautiful results*. FishBase/SeaLifeBase Symposium, Africa Museum, Belgium.
- Leiden, September 2, 2023. *The Appropriation by Modern Humans of the Earth and Oceans*. Naturalis Biodiversity Center, The Netherlands.
- Leiden, September 1, 2023. *What it's like to be a fish: growth and respiration of aquatic animals in times of climate change*. Interdisciplinary Workshop – Humanity in an Age of Extinctions, Leiden University, The Netherlands.
- Hong Kong, July 2023. *The Human Conquest of Earth and the Oceans*. Hong Kong Maritime Museum
- Qingdao, July, 20, 2023. *The relationships between growth and reproduction in water-breathing animals* @@ Chinese Academy of Science, China.
- Dongshan, July 24, 2023. *How humans expanded into 5 continents and 3 oceans* (to High School students). D-SMART's Junior Blue Pioneers Summer Training Program.
- Xiamen, July 26, 2023. *The relationships between growth and reproduction in water-breathing animals*. Marine Ecology Professional Committee, Ecological Society of China, Academic Lecture 1, Third Institute of Oceanography, China.
- Belize City, June 13, 2023. *The Fisheries of Belize: Overview of [Stock Assessment] Results*. Belize Sustainable Fisheries Workshop: Building a Shared Understanding of the Status of Belizean Fisheries. Presentation to Fisheries Department and other staff of the Government of Belize [The same presentation was also made 8 more times to member of fisher organizations and ocean conservation NGOs in Belize City, Dangriga and Corozal from June 14 to 16].
- Vancouver, May 31, 2023. @@. Whiff of Grape. Arbutus Club.
- Heraklion, May 16, 2023. Some key papers and ideas from a 50-year career in marine biology and fisheries (1973 to 2023). Honorary doctorate acceptance lecture, University of Crete, Greece.
- Chersonissos, May 16, 2023. On the direction of the causal arrow linking growth and reproduction in fishes. Invited keynote, 12th International Symposium on Reproductive Physiology of Fish. Aldermar Knossos Royal Hotel, Crete, Greece.
- Los Angeles, April 27, 2023. *Learning from one's successes?* Tyler Prize Lecture. University of Southern California.
- Victoria, November 16, 2022. *The Fisheries of the Indo-Pacific and (Food) Security* [announced as 'Indo-Pacific Fisheries and Interstate Tension'] Maritime Security Challenges 2022, November 14-16, Victoria, B.C. Canada; mscconference.com.
- Ottawa, October 26, 2022. *Rebuilding the abundance of Canada's seas*. Oceana Canada's Symposium on 'Rebuilding Abundance: Priorities for a Resilient Ocean. Westin Hotel, Ottawa.
- St. Pierre, September, 26, 2022. *Ocean warming and deoxygenation: from the Northwest Atlantic to the Grand Barachois*. 2^{ième} Congrès international sur les sciences aquatiques, Saint-Pierre-et-Miquelon, St Pierre, France.
- Penang Island, September 6, 2022. *More on the Gill-Oxygen Limitation Theory (GOLT)*. FishBase Symposium, WorldFish, Penang, Malaysia. [Also, on September 8, same venue: *My life and journey in fisheries, marine sciences, FishBase and WorldFish*].

- Miami, April 28, 2022. *Fish must Breathe: the Gill-Oxygen Limitation Theory*. Florida International University, Fort Lauderdale [Also the same day: *The Human Conquest of the Earth and the Ocean*. Frost Science Aquarium and Planetarium, Miami, Florida].
- St Pierre, September, 30, 2021. *Revisiting a Perfect Ocean: Fisheries and Ecosystems of the Northwest Atlantic*. [in French] Opening Lecture - First Franco-Canadian Congress on Aquatic Science. St Pierre et Miquelon., 30 Sept. to Oct. 3, 2021.
- Marseille, September 11, 2021. *An Introduction to the Gill-Oxygen Limitation Theory (GOLT)* [in French] Aix-Marseille Université, France.
- Paris, September 6, 2021. *Why do fish reach first maturity when they do?* FishBase Symposium, Muséum National d'Histoire Naturelle, France.
- Vancouver, March 12, 2020, *Navigating towards ecologically safe and socially just fisheries* (with Anne Salomon and Barbara Wilson). Simon Fraser University Harbour Centre.
- Hornby Island, March 7, 2020. *The impact of fisheries and global warming on marine ecosystems*. Fourth Annual Herringfest, Conservancy Hornby Island, B.C.
- Campbell River, October 16, 2019. *The impact of fisheries and global warming on marine ecosystems*. 10th Haig-Brown Memorial Lecture. Campbell River Community Arts Council, Haig-Brown Institute and Museum at Campbell River, British Columbia.
- Vienna, 3 October 2019. *Impact of fisheries on the world's marine ecosystems*. Enquete: Nachhaltige Beschaffung von Fisch und Fischprodukten. Stadt Wien, Shifting Values und Tierschutz Ombudstelle Wien.
- Alicante, 30 September 2019. *Studying the impact of fisheries and global warming on marine ecosystems*. Master Course Inaugural Lecture, University of Alicante, Spain.
- Dakar, 24 September 2019. *Pourquoi devons-nous gérer les pêches ?* Utilisation de la méthode CMSY pour l'évaluation des stocks ouest-africains., 23–27 septembre 2019, Dakar, Sénégal [with other lectures on 25–27 September]
- Perth, September 11, 2019. Public seminar: *New ways to view complex oceans data*. Ocean Institute, University of Western Australia.
- Medellin, July 17, 2019. *Fish Must Breathe: Outline of the Gill-Oxygen Limitation Theory (GOLT)*. XV Congreso Colombiano de Ictiología y VI Encuentro de Ictiologos Suramericanos, Medellín, Colombia.
- Nouméa, June 25, 2019. *Les impacts de la pêche et du réchauffement climatique sur les écosystèmes marins*. Workshop on Biodiversity in Oceania– an IPBES/IRD event, CPS, Nouméa, 24–25 June, 2019.
- Qingdao, June 18, 2019. *Why we need to manage fisheries*. Workshop on 'Use of the CMSY/LBB Tools for the Assessment of Chinese Stocks', 18-20 June, Institute of Oceanology, Chinese Academy of Science, Qingdao, China. [Also: lectures on the CMSY and LBB stock assessment methods].
- Hong Kong, June 13, 2019. *An overview of global marine fisheries*. Swire Trust - Marine Stakeholders' Meeting.
- Dunedin, May 23, 2019. *The Impact of Fishing on the World's Oceans*. Science Communication Association of New Zealand. University of Otago, New Zealand.
- Wellington, May 22, 2019. *The Impact of Fishing on the World's Oceans*. Science Communication Association of New Zealand. Victoria University, New Zealand.
- Auckland, May 21, 2019. *The Impact of Fishing on the World's Oceans*. Science Communication Association of New Zealand. Auckland Centre, University of Otago, New Zealand.
- Perth, May 13, 2019. *The Sea Around Us' vision for the Global Fishing Index*. Global Fishing Index Workshop, 13-15 May. Minderoo Foundation, Forrest Hall, Perth, Western Australia. [Same venue and day: *20 years of the Sea Around Us - July 1999 to June 2019*].
- Irvine, April 25, 2019. *The Human Conquest of the Earth and the Ocean*. In: Conference on 'Economic Transition in the Anthropocene'. Beckman Center, Irvine, California.
- Bremen, April 4, 2019. *Ansprache in Namen der Studenten von Professor Hempel*. Feierlichkeiten zum 90. Geburtstag von Professor Gotthilf Hempel, Bremer Rathaus, Bremen, Germany.
- Dakar, February 19, 2019. *Assessing "all" the fish stocks in the world, including small pelagics in Northwest Africa*. Réunion annuelle de coordination du projet AGD-Pélagiques. Commission Sous-régionale des Pêches/Fondation Mava, Sénégal.

- Belem, January 28, 2019. *Fish Must Breathe: Outline of the Gill-Oxygen Limitation Theory (GOLT)*. Plenary lecture, Encontro Brasileiro de Ictiologia (EBI), Do rio ao mar..., Brazilian Ichthyological Society, Brazil. [Also, at same venue and same day: *FishBase and SeaLifeBase: Origins and Dissemination*; on Jan. 29: *Assessing “all” the fish stocks in the world, including Brazil’s*, Oceana Side Event: Overview of EBFM in Data-poor Fisheries].
- São Paulo, January 26, 2019. *Everything Ends on the Sea: Human impacts on the seas and the fishing industry*. FRU.TO, Diálogo do Alimento. São Paulo, Brazil.
- San Diego, November 13, 2018. *Catch Reconstruction Research Shows Declining Global Fisheries Supplies*. Seafood. Session on ‘Oceans and Public Health: Sustainability and Equity Challenges,’ American Public Health Association Annual Meeting and Expo.
- Dana Point, November 1, 2008. *The Impacts of Fisheries and Climate Change on the World’s Marine Ecosystems*. Nicholas Endowment Speaker Series at the Ocean Institute. California, November 1, 2018
- Sooke, B.C. October 2018. *Assessing “all” the fish stocks in the world using CMSY*. Pew Fellows Program in Marine Conservation 2018 Annual Meeting, Canada.
- Singapore, September 25, 2018. Keynote: *Overview of the fisheries in the South China Sea*. The South China Sea Cooperation: Progress, Problems and Prospects. S. Rajaratnam School of International Studies, Nanyang Technological University.
- New York, September 21, 2018. *Thoughts on Interdisciplinarity*. Launch of the Center for Environmental and Animal Protection, New York University.
- Kiel, September 6, 2018. *Fish Must Breathe: Outline of the Gill-Oxygen Limitation Theory (GOLT)*. Ocean Deoxygenation: Drivers and Consequences – Past, Present, Future, 5-7 September 2018 [Replacement Plenary Presentation]. Also: Sept. 5: *Fish Must Breathe: How Temperature and Dissolved Oxygen Shape their Biology*. Sixteenth FishBase Symposium, Geomar, Kiel.
- Sydney, August 15, 2018. *The Growth of Fish in Light of the Gill-Oxygen Limitation Theory (GOLT)*. Australian Museum Research Institute Special Seminar. Australia.
- Nürnberg, June 16, 2018. *Shifting Baselines and the Impacts of Fisheries and Climate Change on the World’s Marine Ecosystems*. International Symposium on Research & Conservation in South America (ISFAS), June 16–17, Nuremberg Zoo, Germany.
- Hong Kong, June 7, 2018. *The global challenge of sea and ocean sustainability*. International Symposium on “China and the Sea: Maritime Economy and the Challenge of Sea and Ocean Sustainability.” French Center for Research on Contemporary China and Hong Kong University, Chow Yei Ching Building, June 7–8, Hong Kong SAR, China.
- Corfu, June 2, 2018. *Fish Must Breathe: Outline of the Gill-Oxygen Limitation Theory (GOLT)*. 12th Panhellenic Symposium of Oceanography and Fisheries, Corfu, Greece, June 2, 2018
- Bremen, May 29, 2018. *Stomping through memory lane: the why and how of ELEFAN*. Working Group on Length-Based Population Studies and Stock Assessments Zentrum für Marine Tropenforschung, Universität Bremen. [Also, on May 30, 2018: *Fish must breathe: how temperature and oxygen shape their biology*. ZMT Public Lecture]
- Perth, May 17, 2018. *Fish must breathe!* University Club, University of Western Australia.
- Exmouth, May 16, 2018. ~~Two Ways of~~ *Introducing the Gill-Oxygen Limitation Theory (GOLT)*. Australian Coral Reef Society – 91st Conference and AGM. Ningaloo Centre, Exmouth, Western Australia
- Toronto, May 3, 2018. *Fisheries and Global Warming: Impacts on Marine Ecosystems*. 4th Doctoral Environmental Science Colloquium University of Toronto, Scarborough.
- Lima, April 20, 2018. *Efectos del Cambio Climático en el Crecimiento de los Peces: la teoría de la limitación de oxígeno-branquias (Gill-Oxygen Limitation Theory - GOLT)*. Universidad Nacional Mayor de San Marcos, Peru. [Also, on April 19: *El impacto de las pesquerías y del cambio climático en los ecosistemas marinos*. Universidad Nacional Agraria La Molina, Lima, Peru]
- Qingdao, March 29, 2018. *Two Ways of Introducing Gill-Oxygen Limitation Theory (GOLT)*. Also, on April 2, 2018: *Impacts of Fisheries and Climate Change on the World’s Marine Ecosystems*. Key Laboratory of Marine Ecology & Environmental Sciences Institute of Oceanology, Chinese Academy of Science, China.

- Hong Kong, January to March 28, 2018: various lectures at Hong Kong University, the Royal Geography Society (March 21), Foundation Exchange (March 28) and three high schools (March 21 & 22), HKSAR, China.
- Idaho Falls, February 28, 2018. First Keynote lecture: *Scientist Must Write*. American Fisheries Society, Idaho Chapter, 36th Annual Meeting [Also: *Two Ways of Introducing Gill-Oxygen Limitation Theory (GOLT)*]
- Xiamen, January 18, 2018. *Two Ways of Introducing Gill-Oxygen Limitation Theory (GOLT)*. Third Institute of Oceanography. Xiamen, Fujian Province, China. [Also: *Impacts of Fisheries and Climate Change on the World's Marine Ecosystems*. Xiamen University].
- Quezon City, January 12, 2018. *Catch reconstructions reveal that global marine fisheries catches are higher than reported (and declining) and Oxygen and the Evolution of Fishes*. Law Enforcement and Science: Restoring Filipino Fisheries. Oceana Philippines, Metro Manila.
- Orono, Dec. 7, 2017. *Two Ways of Introducing Gill-Oxygen Limitation Theory (GOLT)*. University of Maine.
- Kharkiv, November 8, 2017. *Evolution and Change in Marine Ecosystems*. First Plenary Presentation, II USERN Congress and Prize Festival, Ukraine, November 8-10, 2017 [Also, on Nov. 9: *The Human Conquest of the Earth and the Oceans*, same venue.]
- Fairbanks, November 3, 2017. *Impacts of Fisheries and Climate Change on the World's Marine Ecosystems*. Life Science Hour Seminar Series. Institute of Arctic Biology, University of Alaska. [Also, on the same day: *Major Trends in Fisheries: where they lead and how we turn them around*; undergraduate class]
- Puerto Ayora, October 25, 2017. *El cambio climático y sus impactos en las pesquerías del Océano Pacífico*. Taller internacional sobre cambio climático para las Islas Galápagos, del 25 al 29 de octubre de 2017, Galápagos, Ecuador.
- Puerto Varas, October 21, 2017. *Traditional Ecological Knowledge and Now*. Workshop on Integration and Models: Integrating fisher data with quantitative models and assessments. Pew Fellows in Marine Conservation Annual Meeting, Chile
- Papeete, October 5. *Major trends in fisheries: where they lead and how to turn them around*. Plenary Talk, 10th Indo-Pacific Fish Conference, Maison de la Culture, Tahiti, French Polynesia [Also, same location: *Marine Protected Areas are Natural Responses to Fisheries Expansion*. Session on "Marine Reserves as Tools for Ecosystem-Based Fisheries Management in the Indo-Pacific" (B2), 10th IPFC, Oct. 3: *L'évolution de la pêche dans le monde: quel future et quelles améliorations possibles?* Public lecture, Oct. 4 and *Les aires marines protégées : une réponse naturelle à l'expansion des pêcheries*, Pew/CESC Event on Issues in Marine Conservation, Oct. 7]
- Tervuren, September 6, 2017. *Pages in a Book vs. Gill Lamellae: Insights from Reviews of a Paper Reiterating the Gill-Oxygen Limitation Theory (GOLT)*. 15th FishBase Symposium, Royal Museum for Central Africa, Tervuren, Belgium.
- Cape Town, August 29, 2017. *Ocean warming and its effects on fish and fisheries, with emphasis on West and Northwest Africa*. At the Nexus of Climate Change and Fisheries: Strengthening Adaptation Capacity in Africa. Technical Consultation, The World Bank, September 29–31, South Africa.
- Crans-Montana, July 25. *Global marine fisheries as a system: why they are so few fish in the sea*. Planet of the Fire Apes: Workshop on Energy, Finance, Economy and Governance Risk. Switzerland.
- Bremen, June 29, 2017. *Fisheries and Global Warming: Impacts on Marine Ecosystems*. BEST Seminar, Universum Science Centre, University of Bremen.
- Darwin, June 16, 2017. *Fisheries and Global Warming: Impacts on Marine Ecosystems*. Charles Darwin University, Northern Territory, Australia.
- Perth, June 5, 2017. *On Philanthropy and Advocacy for the Oceans, or: why they need us*. WalkFree/Minderoo Foundation. Perth, Australia.
- Perth, May 25, 2017. *Fisheries and Global Warming: Impacts on Marine Ecosystems*. Institute of Advanced Studies Public Lectures, University of Western Australia.
- Salt Spring Islands, May 5, 2017. *Q and A on Global Fisheries and Related Issues*. Salt Spring Forum, Beaver Point Hall, Salt Spring Island, B.C., Canada.
- Vancouver, March 28, 2017. *Save our Seas: Why is Translating Science into Policy so Hard?* UBC's University Killam Lecture at Science World.

- Nalanda, March 17, 2017. *World Fisheries: why there are no longer enough fish in the sea*. Buddhism in the 21st Century, Perspective to Global Challenge and Crises (Session on Environment, Nature Conservation & Animal Welfare), Nalanda, Bihar, India.
- Victoria, March 11, 2017. *Mapping Fisheries for Small Pelagics and the Primary Production they Require*. International Symposium on Drivers of Dynamics of Small Pelagic Fish Resources, 6-11 March. Keynote of WG 6.
- Texel, February 3, 2017. *Distant-Water Fleets and Eye-Yu-Yu Fishing*. Keynote at conference on-Globalization of Fisheries: the prevalence, actors, ecological impact and regulation of illegal fishing February 3–5, 2017 The Netherlands
- Tromsø, January 23, 2017. *Climate change and the future of the oceans*. Arctic Frontier Conference, 21–26 January, Norway.
- London, January 12, 2017. *What is the real catch of the world, and what is preventing us from seeing it?* Turing Lectures, Huxley Hall, Zoological Garden [the same lecture was presented at the University of York, on January 13, 2017].
- Liverpool, December 13, 2016. *The ecology of fishing down marine food webs*. Annual Meeting 2016, British Ecological Society.
- Paris, November 23, 2016. *Les grandes tendances des pêcheries marines*. Conférence « Un seul océan : enjeux et solutions ». Pew Charitable Trusts and Institut Océanographique de Monaco. Maison des Océans.
- New York, November 2, 2016. *How to reduce fishing costs at any cost*. Environmental Humanities Series: Captured at Sea: Trafficking, Slavery, and Illegal Fishing on the Open Ocean, NYU Center for the Humanities.
- Ottawa, October 26, 2016. *The Global Context for Fisheries Rebuilding*. Oceana Canada's Science Symposium, October 26, 2016
- Amsterdam, October 23, 2016. *Impacts of fisheries on the world's marine ecosystems*. Forgotten Fish Symposium, Tolhuistuin (THT), Amsterdam, The Netherlands.
- New York, September 26, 2016. *A Portrait of Fisheries in the High Seas*. Workshop on Closing the High Seas to Fishing, Furman Hall, New York University.
- New York, September 20, 2016. *How to make fisheries more equitable*. Equity in a global context – Rebuilding marine fish stocks under multiple stressors. Side Event to the U.N. General Assembly (UNGA71), organized by the Institut pour la recherche et le développement, France.
- Paris, September 9, 2016. *An Atlas of Global Marine Fisheries*. 14th FishBase Symposium, Muséum National d'Histoire Naturelle.
- Galapagos Islands, August 31, 2016. *The future of global fisheries: what to expect in the next decades*. Third World Heritage Marine Managers Conference, held on 27-31 August 2016 on board the *National Geographic Endeavor*.
- Mexico City, August 9, 2016. *Global warming: effects on marine fish distribution and growth*. Ciencia del Cambio Climático y Manejo Pesquero en México, Ciudad de Mexico, August 9 and 10, 2016. Environmental Defense Fund & Instituto Nacional de Pesca.
- Nouméa, July 25, 2016. *Large Marine Protected Areas: why we need them*. Parc Naturel de la Mer de Corail - Atelier Scientifique, 25-27 juillet 2016, Nouméa, Nouvelle Calédonie [Also on July 26: *Les impacts de la pêche et du réchauffement climatique sur les écosystèmes marins*. Public lecture at the headquarters of IRD, Nouméa]
- Kiel, June 30, 2016. *A global, community-driven catch database*. Mini-presentation/poster. 'Essential Ocean Variables' for Monitoring and Assessment of Marine Biodiversity and Ecosystem Health. International Workshop, June 30–July 1, 2016, Conti Hotel, Kiel, Germany.
- Vancouver, May 13, 2016. Human impacts on marine biodiversity - lessons and future in the context of climate change. Biodiversity & Innovation in the Context of Climate Change. Beaty Museum and #FACTSvan16 (French Ameri- Can Climate Talk (<http://facts.france-science.org>)).
- Snells Beach, April 8, 2016. *The Catches of Global Marine Fisheries and the Unseen Cost of Shifting Baselines*. New Zealand Fisheries Symposium [Also, April 9: *Impacts of Fisheries and Global Warming on Marine Ecosystems: the Challenges for New Zealand*]
- Auckland, April 7, 2016. *The Catches of Global Marine Fisheries: The Policy Implications of Reliable Statistics*. Business School, University of Auckland, New Zealand

- Whitehorse, March 20, 2016. *Global and Arctic Fisheries as if People Mattered*. Beringia Centre, Yukon. [Same lecture on March 21 at Yukon College, Haines Junction]
- Tunis, November 30, 2015. *Pêcheries et réchauffement planétaire et leurs effets sur les écosystèmes marins*. Institut National Agronomique de Tunisie. [Also, December 1 : *Approches appropriées de la gestion des ressources de pêche en Méditerranée*. Institute National des Sciences des Technologies de la Mer], Tunisia.
- Brussels, November 26. *Fisheries and Global Warming: Impacts on Marine Ecosystems*. CEBios - Biodiversity and Development: a global heritage. Royal Belgian Institute of Natural Sciences.
- Mt Carmel, November 17, 2015. Fisheries Session Keynote: *The Impact of Industrial Fishing on the World's Marine Ecosystems*. Batsheva de Rothschild Seminar: Environmental Science and Policy Challenge in the South Eastern Mediterranean, Nir Etzion, Mt. Carmel, Israel.
- Xiamen, November 11, 2015. *Why reliable catch estimates matter: global comparisons of trends in marine fisheries*. Forum on the Sustainability of China's Fisheries, Xiamen, Fujian Province, China [Also, on November 11: *Five Easy Pieces Revisited*. Third Oceanographic Institute, Xiamen].
- Rio Grande, October 20, 2015. *Links between the Sea Around Us and Pew's Global Ocean Legacy project*. Wyndham Grand Rio Mar Resort and Spa, Puerto Rico.
- Valparaíso, October 5, 2015. *What's the Catch? Challenges in Estimating and Maintaining Global Fisheries Catches*. Keynote to Side Event, Conference "Our Ocean 2015", National Congress, Chile.
- Washington, DC. September 30, 2015. *The FishBase Project*. Mini-presentation to the Forum on Open Science and Innovation: 'f the People, By the People, For the People', Office of Science and Technology Policy and Domestic Policy Council, The White House.
- Mahajanga, September 10, 2015. Conference Keynote: *Official vs. Reconstructed Fisheries Catches and their Impacts on Marine Ecosystems*. First FisherMan Regional Conference on "Sustainable Fisheries in the South-Western Indian Ocean: The Importance of Education, Management and Governance," 10 & 11 September 2015, Madagascar,
- Los Baños, September 1, 2015. Symposium Keynote: *FishBase: an improbable success and what it inspired*. FishBase Symposium, Campus of the International Rice Research Institute, Philippines.
- Erice, August 19, 2015. *Challenges to Ocean Life: Fisheries, Global Warming and Pollution*. International Seminars on Planetary Emergencies, 48th Session, Sicily, Italy.
- Brasilia, July 9, 2015. *The State of Global Marine Fisheries (III): The Why and How of Catch Reconstructions*. Workshop sobre a Reconstrução da Estatística Pesqueira do Brasil. July 9–10, Brazil.
- Brasilia, July 8, 2015. *The State of Global Marine Fisheries (II): Solutions for the World and Brazil*. First International Symposium on Marine Fisheries Management in Brazil. July 7–8. [Organized by Oceana Brazil].
- Brasilia, July 7, 2015. *The State of Global Marine Fisheries (I): Challenges to the World and Brazil*. First International Symposium on Marine Fisheries Management in Brazil. July 7–8. [Organized by Oceana, Brazil].
- Tokyo, June 29, 2015. Global Marine reconstructions: first findings. Nippon Foundation, Japan.
- Nassau, June 18, 2015. *Global marine fisheries sustainability: the challenges for The Bahamas*. Bahamas National Trust, New Providence Island, Bahamas.
- Toronto, June 9, 2015. *Global marine fisheries catch reconstructions: rationale, methods and first findings*. Oceana Board and Senior Staff Meeting.
- Hong Kong, June 1, 2015. Keynote: *Toward a re-estimation of the world's marine fish catch*. . International Conference on Biodiversity, Ecology and Conservation of Marine Ecosystems (BECOME) 2015, University of Hong Kong.
- Sydney, May 29, 2015. *Global marine fisheries sustainability: the challenges for Australia*. Bondi Beach Pavilion, Sydney, NSW, Australia.
- Canberra, May 27, 2015. *Global marine fisheries sustainability: the challenges for Australia* Breakfast with Daniel Pauly, Senate Alcove, Parliament House.
- Brisbane, May 22, 2015. *Global marine fisheries sustainability: the challenges for Australia*. Address, 50th Anniversary of the Australian Marine Conservation Society. [Also in Cairns, Australia, on May 23, 2015]

- Sydney, May 21, 2015. *Global marine fisheries sustainability: The Challenges for Australia*. David Thomas Oration, Sydney, Australia.
- Sydney, May 21, 2015. *The Footprint of Global Fisheries and the 'Seafoodprint' of Australia*. TEDx Talk, Sydney Opera.
- Vancouver, April 17, 2015. *The state of global fisheries*. Ten Years of Oceanwise, Vancouver Aquarium.
- Muscat, February 24, 2015. Conference keynote: *The fisheries of the Western Indian Ocean in the context of global fisheries development*. Second International conference on Fisheries, Aquaculture and Environment in the Indian Ocean, Oman.
- New York, January 30, 2015. *Fisheries and global warming: the end of marine biodiversity?* Planet Ocean –Rosa Luxemburg Stiftung. New York City.
- New York, January 29, 2015. *Three Vignettes on the Relationships between (Environmental) Science and Society*. Guest lecture, New York University (Course: Environment & Society; Prof. Dale Jamieson).
- Washington, D.C., December 16, 2014. *Bottom-up catch reconstructions, with emphasis on West African LMEs*. Global Environmental Facility Brownbag Lunch.
- Rennes, November, 24, 2014. *Impacts de la pêche et du réchauffement climatique sur les écosystèmes marins*. Les conférences d'Agorra, Agrocampus.
- Tacoma, November 16, 2014. *Impacts of fisheries and global warming on marine ecosystems*. Keynote, Western Society of Naturalists Annual Meetings.
- Manila, 3 November 2014. *Global fisheries catch reconstructions, with emphasis on the Philippines*. National Symposium on Fisheries - the Road to Sustainable Fisheries Governance, Quezon City.
- Swakopmund, October 9, 2014. *Bottom-up catch reconstructions, with emphasis on West African LMEs*. 3rd Global LME Conference, Namibia.
- Kelowna, *Impact of fisheries and global warming on marine ecosystems*. Okanagan Water & Biodiversity Forum. September 17, 2014, UBC Okanagan.
- Glasgow, August 17, 2014. *The real fisheries catch of the world: global implications of reconstructions*. Third International Marine Conservation Congress.
- Viña del Mar, July 3, 2014. *Recoveries of collapsed stocks*. Seminario internacional : crisis pesquera – el desafío de revertirla. Oceana, Hotel Sheraton International, Viña del Mar, Chile. [In bad Spanish].
- Santiago, July 2, 2014. *Robbing Peter to Pay Paul: rrelationships between marine capture fisheries and aquaculture*, Monaco Blue Initiative, 5th Edition: Marine Governance and Local Participation. Old Parliament Building, Santiago, Chile.
- Cadiz, June 19, 2014. *Impacto de la pesca y del calentamiento global en los ecosistemas marinos*. Lecture given in conjunction with the awarding of an honorary doctorate from the University of Cadiz.
- North Vancouver, February 28, 2014. *Fishing down marine food chains*. EarthWork Lecture, Capilano University.
- Stockholm, January 29, 2014. “*The global footprint of distant-water nations*”; January 30: “*Opportunities and challenges for RFMOs*”. Conference on Global Trends in Fisheries Governance – Improving Sustainability. Swedish Agency for Marine and Freshwater Management.
- Los Baños, December 9, 2013. *Shrinking fish and climate change*. ISB Main Lecture Hall, University of the Philippines.
- Dakar, Novembre 26, 2013. *Understanding and Sharing the Riches of the Ocean*. Plenary Keynote [in French]. 7ième Forum - Partenariat régional pour la conservation de la zone côtière et marine en Afrique de l'ouest. King Fahd Palace Hotel.
- Wilmington, November 11, 2013. *Fisheries and Global Warming Impact on Marine Ecosystems*. Synergy Keynote, Burney Center, University of North Carolina at Wilmington. [This went along with a lecture to freshmen, and a Q& A session with seniors]
- Marseille, October 30, 2013. *How can you govern what you don't know? A rationale for fisheries catch reconstruction*. Keynote lecture. Commission Internationale pour l'Exploration Scientifique de la Méditerranée, 40th Congress. The Pharo, Marseille, France.
- Dublin, October 18, 2013. *Catch reconstructions*. Plenary lecture. Pew Fellows in Marine Conservation Annual Meeting.

- Tokyo, October 10, 2013. *Changes in marine ecosystems caused by climate change and their impact on fisheries*. Joint Symposium on the State of the Ocean. Nippon Foundation and Pew Charitable Trusts. ANA InterContinental, Tokyo, Japan.
- Trivandrum, October 3, 2013. *Overfishing and global warming as threats to Indian marine fisheries: how real and what to do*. Keynote, International Conference on Ecosystem Conservation, Climate Change and Sustainable Development, University of Kerala, India.
- Thessaloniki, September 2, 2013. *Fish have temperature*. 11th FishBase Symposium: More Fish and More. Aristotle University of Thessaloniki, Greece.
- Santa Fe, June 25. *Impact of fisheries and global warming on marine ecosystems*. Santa Fe Institute, New Mexico.
- Dakar, June 5, 2013. *Briefing on reconstructed and IUU catches from Senegalese waters*, to the Director of the Departments of Fisheries of Senegal and his senior staff.
- Berkeley, April 4, 2013. *Impact of Fisheries and Global Warming on Marine Ecosystems*. ESPM Seminar Series, Mulford Hall, University of California at Berkeley.
- Fort Lauderdale, February, 19, 2013. *Eye-You-You, China (again) and Mordor: Tales about Fisheries Catches*. Nova Southeastern University. [Also, on same day and venue *Impact of fisheries and global warming on marine ecosystems*].
- Alicante, January 28, 2013. *Impacto de la pesca y del calentamiento global en los ecosistemas marinos*. Aula Cultural, Alicante, Spain.
- Corpus Christi, January 18, 2013. *Impact of fisheries and global warming on marine ecosystems*. Distinguished speaker Series, Texas A&M University.
- Gamboa, December 9, 2012. In: Workshop on Options for the Management of data-poor stocks. Pew Fellows Program in Marine Conservation, 2012 Annual Meeting, Panama.
- Sydney, December 4, 2012. *Plenty more fish in the sea*. University of Technology, Sydney, Australia.
- Sydney, December 4, 2012. *Breakfast Briefing*, New South Wales Parliament House.
- Hobart, November 30, 2012. *Opportunities ad threat: the future of Australia's fisheries*. Opening lecture, Blue Ocean Film Festival, Stanley Burbury Theatre, UTAS in Sandy Bay [Lecture repeated on December 1 at the Theatre North, Launceston, Tasmania]
- Rimouski, November 27, 2012. *Les grandes tendances dans les pêcheries du monde et leurs effets sur les écosystèmes*. Symposium Keynote. Forum québécois en science de la mer.
- Lima, November 5, 2012. *Presentation of Little Fish - Big Impact: Summary of a Report from the Lenfest Forage Fish Task Force* to the Peruvian 'Sociedad Nacional de Pesqueria,' Nov. 6: same presentation to the Peruvian Minister of the Environment and his senior staff.
- Lima, November 5, 2012. *Seguridad Alimentaria en un Mundo Cambiante : La Pesqueria y el Rol de las Universidades*. [Lecture + panel discussion]. Universidad Agraria La Molina, Peru.
- Santa Cruz, October 17, 2012. *Impact of fisheries and global warming on marine ecosystems*. University of California at Santa Cruz Ecology & Evolutionary Biology Seminar Series.
- Victoria, October 3, 2012. *The State of Global Fisheries*. Luncheon Address, Maritime Security Challenges Conference 2012. Victoria Conference Centre and Royal Rhoads University.
- Tervuren, September 11, 2012. *Completing catch reconstruction for all countries in the world*. FishBase Symposium, Royal Museum for Central Africa, Tervuren, Belgium.
- Leuven, September 10, 2012. *Impact of Fisheries and Global Warming on Marine Ecosystems*. BioSCENTer – Science, engineering & technology Seminars, University of Leuven, Belgium.
- Paris, July 2012. *Fisheries in Large Marine Ecosystems*. IOC/UNESCO-IUCN-NOAA Large Marine Ecosystem 14th Consultative Committee Meeting.
- Brussels, July 11, 2012. *The Distant-Water Fisheries of China*. Presentation to the Fisheries Committee of the European Parliament.
- Peniche, May 24, 2012. *Impact of Fisheries and Global Warming on Marine Ecosystems*. Keynote International Meeting on Marine Resources, Portugal. [Remote video presentation]
- Montréal, May 11, 2012. *Les grandes tendances dans les pêcheries du monde et leurs effets sur les écosystèmes*. Grande Conférence, Centre de Recherches Mathématiques, Université de Montréal.
- La Jolla, May 9, 2012. *Jellyfish Burgers, or How We Changed the Oceans and They Changed Us*. Acceptance speech, Nierenberg Prize for Science in the Public interest, San Diego.
- Princeton, May 7, 2012. *Impact of and Global Warming on Marine Ecosystems and Food Security*. STEP Seminars. Princeton University.

- New York, April 11, 2012. *Fisheries and Climate Stresses on the Global Ocean*. 'Fish School' Nautica/Oceana.
- Rome, April 5, 2012. *Re-assessing the actual and potential contribution of marine fisheries to food security*. Lecture to FAO Department of Fisheries Staff.
- Nairobi, April 2, 2012. *A few Slides on Marine Fisheries vs. Food Security*. Roundtable meeting on fisheries and the right to food. UN/UNEP.
- Vancouver, B.C. February 17, 2012. *Lessons from a Use-inspired international Collaboration in Marine Research*. Symposium on "Successful Interdisciplinary Collaborations: Insights from Practice and Theory". AAAS Annual Meeting.
- Burnaby, B.C. 26 January 2012. *Major trends in marine fisheries and their ecosystem impact*. Simon Fraser University, Biological Sciences Departmental Seminar.
- Arlington, VA, December 15, 2011. *5 Easy Pieces*. U.S. Fish and Wildlife Service & Island Press.
- Vancouver, WA, November 12, 2011. *Major trends in world fisheries*. Western Society of Naturalists, Annual Symposium.
- Bergen, November 18, 2011. *Reconstructing the marine fisheries catch of countries in the North and the South: the findings so far and the implications for Norway*. Institute of Marine Research. Bergen, Norway.
- Paris, October, 13, 2011. *Fishing Down the Deep*. Institut Océanographique de Monaco.
- Hamburg, September, 22, 2011. *Wie ändern sich die Verteilung der Meeresfischarten mit der Erwärmung? Warnsignale Klima: die Meere –Änderungen & Risiken*. Universität Hamburg, Germany.
- Strasbourg, September 13, 2011. *The global significance of CFP reform. A global perspective on EU fisheries reform* - European Parliament/Oceana. [with >10 MEPs]

- New York, June 5, 2002. *The global state of fisheries: implications for conservation*. Presentation to the Board and Headquarter Staff of the Natural Resources Defence Council. New York, N.Y.
- Bangkok, May 13, 2002. *Ecosystem-Based Approach for Coastal Zone Management*. Coastal Zone Asia-Pacific Conference on ‘Improving the State of Coastal Areas.’ [Plenary Keynote]
- Washington, D.C., April 12, 2002. *The State of Marine Ecosystems Worldwide: Lessons for the US?* Briefing to the House of Representatives’ Oceans Caucus.
- Pacific Grove, CA, April 9, 2002. *The Unfolding Collapse of Global Fisheries: Implications for Food Security*. Invited lecture to The Friends of Hopkins Marine Station.
- Corvallis, April 8, 2002. *Mapping Fisheries onto Marine Ecosystems: a new tool for inference on basin-scale ecology and global food security*. Invited lecture, Oregon State University.
- New York, March 7, 2002. *The Crisis in Fisheries and Marine Biodiversity*. Invited presentation at the Conference on ‘Sustaining Seascapes: the Science and Policy of Marine Resources Management.’ American Museum of Natural History.
- San Diego, March 4, 2002. *Troubled Seas: the Fisheries Crisis*. Distinguished Speaker Series: Nature and Society – Putting Knowledge to Work. University of California at San Diego. [Also on same day: “Global Mapping of Fisheries: Methods and Lesson Learnt.” Scripps Institution of Oceanography]
- College Station, Texas, February 19, 2002. *Global marine fisheries and their ecosystem impacts*. Texas A & M 125th Anniversary Celebration Symposium on ‘A sustainable Gulf of Mexico: Research, Technology and Observations, 1950 to 2050s.’
- Boston, February 15, 2002. *Setting a Baseline: Fisheries and Ecosystems in 1900*. Symposium on ‘Restoring the Richness of the Sea – Unrealized Potentials.’ Annual Meeting, AAAS.
- Vancouver, February 7, 2002. *The Global Crisis of Fisheries: Implications for Food Security*. A Science First! Lecture. University of British Columbia.
- Paris, December 4, 2001. *Marine Fisheries and Mariculture at Rio+10*. Global Conference on Oceans and Coasts at Rio+10: Toward the 2002 World Summit on Sustainable Development.
- Miami, November 26, 2001. *The Global Status of Marine Fisheries: Limping into the 21st Century*. World Conference on Scientific and Technical Bases for the Sustainability of Fisheries. Rosenstiel School of Marine and Atmospheric Science, University of Miami.
- Reykjavik, October 4, 2001. *Mean trophic levels and related indices of ecosystem status*. SCOR/IOC Working Group 119 on ‘Quantitative Ecosystem Indicators for Fisheries Management.’

- Gloucester Point, September 28, 2001. *The State of the North Atlantic Fisheries and their Supporting Ecosystems: a Map-based Approach*. Seminar Series, Virginia Institute of Marine Science.
- Reykjavík, September 24, 2001. *Ecological geography as a framework for a transition towards responsible fishing*. Session Keynote, Iceland-FAO Conference on Responsible Fisheries in the Marine Ecosystem.
- Hamburg, July 27, 2001. *Fischerei und Naturschutz: Wege zum Ausgleich der Interessen*. Festveranstaltung, 100 Jahre Deutsche Wissenschaftliche Kommission für Meeresforschung. Altonaer Museum, Hamburg-Altona.
- Rennes, July 2001. *Ecopath as a tool for ecosystem modelling*. Composante Ecopath du Cours SIAP en Gestion Écosystémique, juillet 3-5, 2001. Ecole Nationale Supérieure Agronomique de Rennes, France.
- Kiel, June 29, 2001. *The Importance of Thinking Big: Recent Developments in Ecosystem Modeling*. Meereskunde Kolloquium, Marine Science Institute, Kiel University.
- Rockport, June 12, 2001. *Fisheries impacts on marine ecosystems: they are worse than you thought*. Pew Ocean Commission, Maine, USA.
- Washington, D.C. June 5, 2001. *Mapping fisheries as a tool to evaluate their ecosystem impacts*. Marine Fish Conservation Network, Second Annual Meeting.
- Sidney, B.C., April 12, 2001. *Fisheries Impacts on Marine Ecosystems, or how physical oceanography became more important than it should be*. Institute of Ocean Sciences, Fisheries and Oceans Canada, 21st Century Lecture Series.
- San Francisco, February 18, 2001. *Down with Fisheries, Up with Aquaculture: implications of global trends in the mean trophic level of fishes*. Symposium on 'The Aquaculture Paradox: does fish farming supplement or deplete world fisheries?' Annual Meeting, AAAS.
- Woods Hole, February 2, 2001. *The Importance of Thinking Big: Addressing large-scale and global change issues through marine and fisheries biological research*. A Lecture to Honor Black History Month. Woods Hole Oceanographic Institution, Woods Hole, MA.
- Newport, January 8, 2001. @ Second Annual Distinguished Marine Scientist Colloquia, Hatfield Marine Science Center, Newport, Oregon.
- North Vancouver, October 26, 2000. *Fishing down marine food webs*. Capilano College Special Lectures in Science Series. North Vancouver, B.C.
- Seattle, October 10-12, 2000. Wooster Lectures in Ocean and Fishery Sciences. A series of three lectures sponsored by the College of Ocean and Fishery Sciences, University of Washington.
- Brugge, September 27, 2000. *Fisheries and Conservation: a Program for their Reconciliation*. 'Open Lecture' (Symposium Keynote), International Council for the Exploration of the Seas, Annual Science Meeting.
- Taipei, August 8, 2000. *Ecopath as a tool from ecosystem modeling*. APEC/OMISAR Workshop on Marine Ecosystem Analysis and Modeling for the APEC Region, August 7-10, 2000, Taiwan.
- Corfu, July 26, 2000. *Approaches for dealing with sources of bias when studying the fishing down marine food web phenomenon*. CIESM Workshop on 'Trophic levels and state of fisheries resources in the Mediterranean Sea.' Kerkyra, Greece.
- Washington, D.C., July 17, 2000. *Fishing down the food web: some policy implications*. International Ocean Science Day, AAAS/House of Representatives' Ocean Caucus.
- Akureyri, April 6, 2000. *Fisheries impacts on North Atlantic food webs*. Conference on 'Competitiveness within the Global Fisheries.' University of Akureyri, Iceland.
- Victoria, March 14, 2000. *Fisheries, Conservation and Marine Protected Areas*. A lecture sponsored by Department of Fisheries and Ocean. University of Victoria, B.C.
- Vancouver, March 8, 2000. *Fishing down marine food webs*. Lectures on Current Issues Facing B.C.'s Aquatic Environment. Marine Science Centre, Vancouver Aquarium.
- Washington, D.C., February 21, 2000. *Simulating fisheries impacts on aquatic ecosystems: the state of the art, what it can and cannot do*. Symposium on 'Back to the Future: Restoring Ecosystems impacted by Fisheries.' Annual Meeting, AAAS.
- Pacific Grove, February 14, 2000. *Extracting patterns on shark biology from electronic databases, or: one down and one more to go*. International Pelagic Shark Workshop, Asilomar Conference Center, Pacific Grove, California, USA.
- Vancouver, November 6, 1999. *Global fisheries and marine conservation: is coexistence possible?* Vancouver Institute Lecture, Woodward Instructional Resource Centre, UBC.

- Potsdam, October 3, 1999. *Fisheries science and its elusive search for sustainability*. IOC/SCOR/SCOPE Assessment Workshop 'Oceans 2020: Science for Future Needs,' Potsdam, Germany.
- Nairobi, @ August 1999. *Uses of FishBase for Fish Stock Assessments* (and other lectures). ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management, Kenya.
- Moncton, août 10, 1999. *Une vision mondiale des pêches et de leurs impacts sur les écosystèmes*. Colloque Nouveaux outils, nouvelles démarches pour la gestion durable du milieu marin. VIII Sommet de la Francophonie, Moncton, New Brunswick, Canada.
- Dakar, @ April 1999. *Utilisation de FishBase pour l'évaluation des stocks* and other lectures. ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management, Senegal. [Details at www.fishbase.org]
- Athens. February 10, 1999. *Not Just Fish: the impact of Marine Fisheries on the Public Good*. Environment Ethics Certificate Program Seminar Series, School of Marine Programs, University of Georgia, USA.
- Swakopmund, @ December 1998. *Uses of FishBase for Fish Stock Assessments* and other lectures. ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management. [Details at www.fishbase.org]
- Sao Paulo, December 1, 1998. *Placing Fisheries in their Ecosystem Context*. Ecopath course for Participants from South America, held in Sao Paulo, Brazil, November 30-December 5, 1998, under the Auspices of the European Union.
- Burnaby, November 19, 1998. *Fishing down marine food webs: an update*. 'Oceans Limited Conference,' Simon Fraser University. [Also: Nov. 12: similar presentation at the session on 'The Use and Misuse of Science in Fisheries Management,' Sigma Xi Forum, Vancouver].
- Anchorage, September 29, 1998. *The Ecopath modelling approach applied to pre- and post-spill Prince William Sound*. Aleutian/Pribiloff Island Association.
- Woods Hole, August 25, 1998. *Overview of the current state of the world's fisheries*. 'Fisheries Oceanography and Society Symposium' presented by the Biology Department and sponsored by Mr. and Mrs. Eugene H. Kummel. Woods Hole Oceanographic Institution, Woods Hole, MA.
- Hirsthals, August 4, 1998. *Placing Fisheries in their Ecosystem Context* and other lectures. Ecopath course for Participants from West Africa and Europe, held in Hirsthals, Denmark, August 4–8, 1998, under the Auspices of the European Union.
- Accra, July 28, 1998. *Spatial modelling of trophic interactions and fisheries impacts in coastal ecosystems: a case study of Sakumo Lagoon, Ghana*. Workshop on the Gulf of Guinea Large Marine Ecosystem: environmental forcing and sustainable development. Ghana. [Also, on July 29: *Consilience in oceanographic and fishery research: a concept and some digressions*].
- Southampton, July 13, 1998. *Tropical Fish: Pattern s, Digression and Causes*. Jack Jones Lecture, FSBI Symposium on 'Tropical Fish Biology'. Fisheries Society of the British Isles, 13–16 July, United Kingdom.
- Lisbon, July 1, 1998. Keynote: *Fishing down marine food webs' as an integrative concept*. '98 EXPO Conference on Ocean Food Webs and Economic Productivity, Lisbon, Portugal, 1–3 July 1998.
- Port of Spain, June 1, 1998. *Rationale for reconstruction of catch time series* (and other lectures). ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management, Trinidad and Tobago.
- Puntarena, April 21, 1998. *Placing Fisheries in their Ecosystem Context* (and other lectures). Ecopath course for Participants from Central America and the Caribbean, held in Puntarena, Costa Rica, April 21–27, 1998, under the Auspices of the European Union.
- Ottawa, @ October (?). Presentation to Univ. of Ottawa students of the Hutchings et al. paper (contra Artur May, ex-DFO)
- Nouméa, October @, 1997. *Uses of FishBase for Fish Stock Assessments* (and other lectures). ACP-EU FishBase Training Courses in Fisheries and Fish Biodiversity Management, New Caledonia.
- Baltimore, September 4, 1997. *Localism vs. Universalism in Science: Vignettes from Fisheries Research*. Pre-ICES Conference to Encourage Minorities in the Marine Sciences. National Marine Fisheries Service/National Science Foundation/ Maryland Fisheries Commission/Morgan State University/Columbus Center. Baltimore, Maryland.
- Rennes, March 15, 1997. *Les pêches globales: géostratégies et nouveaux acteurs*. Activités halieutiques et développement durable - 4ième Rencontre halieutiques de Rennes. Ecole Nationale Supérieure Agronomique de Rennes.

- Galiano Island, March 8, 1997. *Marine Protected Areas around the World: how do we get one here?* South Galiano Community Hall, Galiano Island, B.C.
- Anchorage. January 24, 1997. *Building and Applying Ecological Models*. Joint lecture [with Dr. Stuart Pimm] to the Annual Conference, Exxon Valdez Oil Spill Restoration Council.
- Cape Town, 26 November 1996. *Large marine ecosystems: analysis and management*. Benguela Dynamics Symposium, Benguela Ecology Programme.
- Sechelt, October 4, 1996. *Competition between Humans and Marine Mammals in the Pacific*. Sunshine Coast Natural History Society. Sechelt, B.C.
- Dearborn, August 28, 1996. *Quantitative vs. qualitative approaches for evaluating fisheries research, with emphasis on groupers and snappers in the south-eastern USA*. Side event by American Institute of Fishery Research Biologists: 'Forty Years of Controversy and Achievement in North American Fisheries.' Dearborn, Michigan.
- Amsterdam, 8 July 1996. Global change, fisheries and society: the future has already begun. The Oceanography Society's 1996 Meeting.
- Vancouver, November, 6, 1995. *Rationale for Mass-Balance Trophic Models*. Workshop on Mass-Balance Models of North Pacific Ecosystem, November 6-10, 1995, Fisheries Centre, UBC.
- Seattle, September 26, 1995. *Fleet-operational, economic and cultural determinants of by-catch uses in Southeast Asia*. Solving By-Catch Workshop: Considerations for Today and Tomorrow, Seattle, September 25-25, 1995.
- Tampa, August 28, 1995. *Primary production required to sustain global fisheries and its implication for conservation especially of marine mammals*. 125th Annual Meeting, American Fisheries Society, August 26 – September 1, Tampa, Florida.
- Quezon City, August 10, 1995. *Ecosystem modeling*. University of Philippines, Marine Science Institute.
- Nairobi, 31 July 1995. Keynote: *Population Dynamics of Tropical Fishes*. Fisheries Society of Kenya, 31 July-4th August, Nairobi.
- Vancouver, May 2, 1995. *Fisheries, marine mammals and the carrying capacity of the Pacific Ocean*. Invited lecture, Fifth Asian and Pacific University President's Conference on 'Realizing the New Pacific Community'. UBC.
- Canberra, December 10, 1994. *History of fisheries in Southeast Asia*. Workshop on the 'Economic History of Southeast Asia' project of the Australian National University; organized by John Butcher. [See his book on the history of Southeast Asian fisheries].
- Manchester, August, 24, 1994. *Making predictions and managing multispecies communities*. Sixth International Congress on Ecology.
- Vancouver, March 28, 1994. *For a New Ichthyology: thought on what access to structured data on all fishes of the word may mean for teaching and research*. Fisheries Centre and Zoology Department, UBC. [Job application lecture].
- Seattle, June 15, 1994. *Small-scale fisheries in the tropics: marginality, marginalization and some implication for fisheries science*, World Conference on Fisheries Management, University of Washington.
- Campeche, October 27, 1993. *FishBase and AUXIMS as tools for comparing life-history patterns, growth and natural mortality of fish: applications to snapper and groupers*. EPOMEX/ICLARM International Workshop on Tropical Snappers and Groupers, University of Campeche, Mexico, 26-30 October 1993.
- Texel, September 30, 1993. Keynote: *A framework for latitudinal comparison of flatfish recruitment*. Second International Flatfish Symposium, September 29-6 October, Texel, The Netherlands.
- Dublin, September, 25, 1993. Introduction to the Theme Session on 'Computers in Fisheries Research'. International Council for the Exploration of the Sea, 23-28, Council Meeting.
- Dakar, February, 10, 1993. *Un mécanisme explicatif des migrations des poissons le long des côtes du Nord-Quest africain*. Symposium sur l'évaluation des ressources exploitables par la pêche artisanale sénégalaise, 8-13 février 1993, Centre de Recherche Océanographique de Dakar-Thiaroye (CRODT), Sénégal. Also: *Use of FishBase in the context of the BDRM*. 12 February, Workshop on the "Base de Données Régionale Maritime" (BDRM), 15-19 February 1993. CRODT, Sénégal.
- Athens, May, 5, 1992. *Assessment methodologies and fisheries management: how to keep making sense*. Session Keynote. Also: *The ICLARM Software Project*. First World Fisheries Congress, Athens, Greece.

- Townsville, March 4, 1992. *Modeling Coral Reef Ecosystems*. ICLARM/AIDAB Workshop on Management of Coral Reef Resource Systems, Australian Institute of Marine Science, Also: *Population dynamic studies of tropical fishes: a comparative approach*. Special Seminar, School of Biological Sciences, James Cook University of North Queensland.
- Abidjan, November 14, 1991. *A new method for comparing the growth performance of fishes, applied to wild and farmed tilapias*. Third International Conference on Tilapia in Aquaculture, 11–16 November 1991, Abidjan, Côte d'Ivoire.
- Jülich, July 20, 1991. Presentation of the B:RUN, FiSAT, MAXIMS and Ecopath II software. International Workshop on Techniques for Biological Assessment in Fisheries Management, 17–24 July 1991, Forschungszentrum Jülich, Germany.
- Montpellier, July 5, 1989. Presentation on behalf of H. Lampe of “*Small-scale fisheries and the development of related, particularly economic research in Southeast Asia*”. International Symposium on Research and Small-Scale Fisheries, 3–7 July, Montpellier, France. .
- Perpignan, June 30, 1991. *Modélisation trophique des écosystèmes aquatiques*. Université de Perpignan, France.
- Havana, June 22, 1990. Keynote of Session on Fishery Biology: *Fishery science: a new toolkit for dealing with new problems*. Second Marine Science Congress, 18–22 June, La Havana, Cuba.
- Tokyo, April 20, 1991. *Fisheries yields and morphoedaphic index of Lake Mainit, Philippines*. Second Asian Fisheries Forum, 17–22 April, Tokyo, Japan.
- Manila, May 30, 1991. Sound Ecology is good economics: four vignettes from Philippine Fisheries. The Philippine Environment: Financing Environmental Conservation and Rehabilitation. Philippine Futuristic Society.
- Washington, D.C. February 18, 1991. *Stratified models of large marine ecosystem: a general approach and an application to the South China Sea*. Mini-Symposium on Science and Management of Large Marine Ecosystems, AAAS Annual Meeting.
- Copenhagen, October 7, 1990. Some features of fish food consumption estimates used by ecosystem modellers. I.C.E.S. C.M. 1990/G: 17, Session O., 4–9 October, Denmark.
- Mayagüez, July 31, 1990. *Growth and Population Dynamics of Tropical Fishes*. Training course on length-based assessment and the Compleat ELEFAN software. Executed from July 30 to August 1, 1990 for the Caribbean Fisheries Council and the Puerto Rico Department of Fisheries. [This was followed by lectures on ecosystem modelling at the NOAA Southeast Fisheries Center, Miami]
- Aberdeen, July 19, 1989. Keynote: *Food consumption by tropical and temperate marine fishes: some generalizations*. Symposium on Fish Population Biology dedicated to R.J.H. Beverton. Fisheries Society of the British Isles.
- Mwanza, February 10, 1989. Introduction to length-based fish stock assessment. FAO/DANIDA/HEST Training Course in Fish Stock Assessment, 7–22 February, Mwanza, Tanzania.
- Quezon City, November 30, 1988. *Key elements of the IMARPE/GTZ / NMFS / ICLARM study on the Peruvian anchoveta and its upwelling ecosystem as an example of multidisciplinary research in oceanography*. Synthesis Workshop on Marine Science Programs in the Philippines, Nov. 29–Dec. 1, 1988. Asian Institute of Tourism, Diliman, Quezon City, Philippines.
- Johore Bahru, October 26, 1988. *Fisheries Resource Management in Southeast Asia: Why bother?* ASEAN/US Policy Workshop on Coastal Area Management, October 25–27 1988, Johore Bahru Malaysia.
- Halifax, September 30, 1988. Invited lecture ‘*On development, fisheries and dynamite: a brief review of tropical fisheries management*’. International Conference on Natural Resources Modeling and Analysis, 29 September –1 October. Halifax, N.S., Canada,
- Toronto, September 14, 1988. *Fisheries stock assessment: what can the north learn from the south?* 118th Meeting of the American Fisheries Society, 12–16 September.
- Amsterdam, July 6, 1988. *Small-scale fisheries in the Neotropics: research and management issues*. 46th International Congress of Americanists/Symposium on Small-Scale Fisheries in Latin America, 4–8 July, 1988, The Netherlands.
- Paris, June 8, 1988. *Training and Education in marine science: the views of 130 members of CLARM's Network of Tropical Fisheries Scientists*. Year 2000 Challenges for Marine Science Training and Education Worldwide. UNESCO Headquarters, 6–10 June 1988.

- Maputo, February 23, 1988. *Some key concepts in fisheries research and management, with emphasis on Mozambique*. Course on the “Use of Computers for Fisheries Research”, held at the Instituto de Investigaçao Pesqueira, 23 February to 15 March 1988 in Maputo, Mozambique.
- Kuwait, December 8. *On improving the construction, parametrization and interpretation of steady state ecosystem models*. 9th Shrimp and Finfish Management Workshop, 7–9 December, Safat, Kuwait.
- Jakarta, November 26, 1987. *Assessment of the fish resources of Southeast Asia, with emphasis on the Banda and Arafura Seas*. Snellius-II Symposium, 23-29 November 1987, Jakarta, Indonesia.
- Callao, August 24–28, 1987. *The Peruvian anchoveta and its Upwelling Ecosystem: three decades of change*. Workshop on Models for Yield Prediction in the Peruvian Upwelling Ecosystem, IMARPE, Callao (Lima), Peru.
- Bangkok, March 18, 1987. *Comparison of growth performance of tilapia in open water and aquaculture*. Second International Symposium on Tilapia in Aquaculture, 16–20 March 1987, Bangkok, Thailand.
- Darwin, February, 18, 1987. *Theory and practice of overfishing: A Southeast Asian perspective*. Symposium on the Exploitation and Management of Marine Fishery Resources in Southeast Asia/ 22nd Session of the Indo-Pacific Fisheries Commission, Darwin, Australia, 16–26 February 1987.
- Guayaquil, October 29, 1986. *Some preliminary results from an international multidisciplinary project aimed at reconstructing time series on the Peruvian ecosystem for the years 1953–1982*. Chapman Conference on El Niño: An International Symposium, 27–31 October 1986, Guayaquil, Ecuador.
- Manila, May 28, 1986. *Concepts that work: some advances in tropical fisheries research and Some practical extensions to Beverton and Holt's relative yield-per-recruit model*. First Asian Fisheries Forum, May 26-31, 1986. Asian Fisheries Society, Manila.
- Campeche, April, 23, 1986. *Towards appropriate concepts and methodologies for the study of recruitment in tropical demersal communities and The relationship between shrimp yields and intertidal vegetation (mangrove) areas*. IREP/OSLR Workshop on the Recruitment of Coastal Demersal Communities, Campeche, Mexico, 21–25 April 1986.
- Sidi-Fredj, November 16, 1985. *Méthodes analytiques simples pour l'évaluation des stocks de poissons*. Atelier CGFM/FAO de Sidi-Fredj sur les méthodes analytiques simples en évaluation des ressources, 16-18 novembre 1985, Sidi-Fredj, Algérie.
- Mexico City, August 14, 1985. *Shrimp vs. Fish in Southeast Asian Fisheries: the biological, technological and social problems*. Recursos Pesqueros Potenciales de Mexico: la Pesca Acompañante del Camaron. Instituto de Ciencia del Mar y Limnologia/Instituto Nacional de Pesca/UNAM, Mexico, D.F.
- Philadelphia, July 1985. *Fishery science in tropical developing countries: some observation relevant to scientometry*. The Bibliometrics of the Third World's Contribution to Science, 10–14 July, Institute of Scientific Information, Philadelphia.
- Des Moines, June 11, 1985. *Application of information on age and growth to fishery management*. Invited Contribution to the International Symposium on The Age and Growth of Fish, 9–12 1985, Des Moines, Iowa. .
- Nouméa, June 28, 1985. *When is fisheries management needed?* Forum Fisheries Agency/South Pacific Commission Workshop on the Management of South Pacific Inshore Fisheries, June 26–July 7, 1985.
- Kiel, @, 1985. *Zur Fischereibiologie tropischer Nutztier: eine Bestandsaufnahme von Konzepten und Methoden*. Habilitation Lecture.
- Mazzaro del Vallo, February 13, 1985. *A review of the ELEFAN system for analysis of length-frequency data in fish and aquatic invertebrates*. ICLARM/KISR International Conference on the Theory and application of Length-based methods stock assessment Methods, Istituto di Tecnologia della Pesca e del Pescato, February 11–16 1985. Mazzaro del Vallo, Sicily, Italy.
- Kuwait, December 16, 1984. *A methodology for studying the recruitment into Kuwait's shrimp stocks*. 6th Shrimp and Fin Fisheries Management Workshop, 15–17 December 1984.
- Cochin, November 1984. *Population dynamics of tropical fishes and other lectures*. Advanced Training course on Fish Population Dynamics and Stock Assessment. Central Marine Fisheries Institute, Kochi, India.

- Vancouver, May 8, 1984. *Seasonality in the recruitment of Philippine fishes as related to wind patterns*. Third International Symposium on the Early Life History of Fishes/ 8th Annual Larval Fish Conference, 7–9 May 1984, University of British Columbia, Vancouver, Canada.
- Cagayan de Oro, @ late October 1983. *On management-oriented fisheries research*. Xavier University, Cagayan de Oro, Philippines.
- Halifax, September 28, 1983. *Studying recruitment variability in tropical fishes: a brief review of the available methodology*. Workshop on the IREP Component of the OSLR program, 26–20 September, Halifax, Nova Scotia. Canada.
- Honolulu, August 1983. @ Lecture to NMFS staff and others. Hawai'i, USA. .
- San José, April 20, 1983. *Monsoon-induced seasonality in the recruitment of Philippine fishes and On the seasonal growth, monthly recruitment and monthly biomass of the Peruvian anchoveta from 1961 to 1979*. Expert consultation to examine changes in abundance and species composition of neritic fish resources, Costa Rica, 18–29 April 1983.
- Rome, March 2, 1983. *The research process and communication of results: lessons learned from a multi-disciplinary analysis of a tropical small-scale fishery*. ACMRR Working Party on the Management of Living Resources in Near-shore Tropical Waters, 28 February- 4 March 1983. FAO, Rome,
- Cairo, January 1983. *Recent developments in the methodology available for the assessment of exploited fish stocks of reservoirs*. Roundtable Discussion on Increasing Benefits from African Reservoir Fisheries. Committee for Island Fisheries of Africa/FAO, 11-13 January, Cairo, Egypt.
- Sydney, May 2, 1982. *Development and dissemination of new methodologies for tropical stock assessments*. Indo-Pacific Fishery Commission. Third Session of the Standing Committee on Resources Research and Development, Australia, 28 April to 4 May 1982.
- Key West, November, 1981. *Application to shrimp stocks of objective methods for the estimation of growth, mortality and recruitment-related parameters from length-frequency data* NOAA/FAO Workshop on the scientific basis of the Management of Penaeid shrimps, November 18–24, 1981, in Key West, Florida
- Callao, November 1981. @. Peru.
- Woods Hole, October 8, 1981. *Stock assessment packages for programmable calculators and microcomputers: two examples, with a discussion of their potential usefulness in developing countries*. International Council for the Exploration of the Sea, 1981 Council Meeting.
- Samutprakarn, October 5, 1981. *The nature, investigation and management of tropical multispecies fisheries*. Lectures given at the Joint FAO Regional Training Course on Fisheries Stock Assessment and Fisheries Statistics, October 1-9, Samutprakarn, Thailand.
- Manila, May 20, 1981. *Aspects of the growth and mortality of exploited coral reef fishes*. Fourth International Coral Reef Symposium, 18–22 May 1981.
- Sydney, January 17, 1981. *Studying single-species dynamics in a multi-species context*. ICLARM/CSIRO Workshop on the Theory and Management of Tropical Multispecies Stocks, held in Cronulla, 12–21 January 1981.
- Copenhagen, October 8, 1980. A BASIC program for the objective extraction of growth parameters from length-frequency data. International Council for the Exploration of the Sea. Council Meeting 1980/D: 7 Statistics Committee.
- Mombasa, May 19–June 4, 1980. *A selection of simple methods for the assessment of tropical fish stocks*. Lectures given at the FAO/DANIDA Training Course on the Methodology of Fisheries Science, Mombasa, Kenya.
- Hong Kong, December 5, 1979. *An attempt to estimate the stock recruitment relationships of Gulf of Thailand penaeid shrimps*. 2nd Session of the Standing Committee on Resources Research and Development, Indo-Pacific Fishery Commission, Hong Kong, 3-8 December 1979.
- Kingston, September 20, 1979. *A new methodology for acquiring basic information on tropical fish stocks: growth, mortality and stock recruitment relationships*. International Workshop on Stock Assessment for Tropical Small-Scale Fisheries, 19–21 September, University of Rhode Island.
- Port Moresby, August 9, 1979. *On the growth of fishes*. Department of Biological Sciences, University of Papua New Guinea.
- Sydney, August 2, 1979. *Some aspect of the growth of fishes*. Seminar given to the CSIRO Division of Fisheries and Oceanography, Cronulla, Australia.

- Manila, August 1, 1979. *Problem of stock and yield assessment in tropical waters*. Seminar at the Philippine Ministry of Natural Resources.
- Copenhagen, September 1978. The estimation of natural mortality in fishes from their growth parameters and mean environmental temperature. Council Meeting, International Council for the Exploration of the Sea.
- Jakarta, July 1975. Presentation of 2 papers on fish of the Family Leiognathidae. International Symposium on the Ecology and Management of some tropical shallow water communities (coral reefs, tidal forest and estuaries, Jakarta, 28 June–3 July 1976.
- Jakarta, March 31, 1976. International Workshop on the Fisheries Resources of the Malacca Strait, March 29–April 2. Directorate General of Fisheries, Jalan Salemba Raya, 16, Jakarta, Indonesia.

Participation in films/videos

- Everything will change: an extinction road movie from the year 2054. A film by Marin Persiel, which premiered on September 24, 2021 at the Filmfest Zürich.
- Extinction: The Facts. A documentary film by David Attenborough and BBC One; released in September 2020; <https://www.dailymotion.com/video/x7w7wxr>
- An Ocean Mystery: The Missing Catch. A film by Alison Barrat, Smithsonian Channel. Premiered on April 22, 2017 in Washington, DC.
- Daniel Pauly, scientifique de l'année. January 2017. A short film by Gaëlle Lussiaa-Berdou for ICI Radio-Canada. Available at <https://www.youtube.com/watch?v=7BGEzKPA2cU>
- Daniel Pauly - Lauréat 2016 Médailles Albert Ier - Section Science. November 2016. A short digital film by the [Musée océanographique de Monaco](http://www.musee-oceanographique.de-monaco). Available at <https://www.youtube.com/watch?list=PL73j0fEMCBT5nxEvPohB55uv1DViscF91&v=dwohdHsm3ZA>
- The night is always young. 2015. Digital film by [Julian McAlpine](http://www.julianmc Alpine.com). Available at <https://www.youtube.com/watch?v=YA9Bot5wrTE>
- Daniel Pauly's next big question for marine biology. 2014. Unesco's Intergovernmental Oceanographic Commission. Available at <https://vimeo.com/111281229>
- The Last Ocean - Film on Ross Sea. 2013. Video Project. Trailer available at https://www.youtube.com/watch?time_continue=135&v=k0OVV16sl5k
- The *Sea Around Us* project: assessing the impact of fisheries on marine ecosystems and food security. 2012. [video recording] URI: <http://hdl.handle.net/2429/43604>
